NODAWAY HOGS TO ARGENTINA

SOUTH AMERICAN COUNTRY UP-BUILDING FARMS

OPPORTUNITY IS OFFERED

Chance for Young Man to Make Trip to That Country in Charge of Hog Consignment.

The Argentine government, now engaged in the upbuilding of the farm lands of that country and the restocking of the large ranches with American stock, has shown its estimation for the products of Nodaway county. In a recent letter to F. L. Garrett, secretary of the local Poland-China Hog Breeders Association, a request is made that he purchase a number of the finest specimen in this county for shipment to Buenos Aires.

The South American country is undergoing a great change at the present time and the government is taking control of the matter of raising the standard of the farms. Every hog which is to be sent from this county must pass a rigid inspection by veterinary officials before shipment from New York, and the Argentine government also requires that every animal must bear a tatoo mark for identification.

The letter received by Mr. Garrett was signed by D. W. Pruce, one of the agricultural experts working in connection with the Argentine government. In the letter he explains that the idea of the government is to get the best kind of stock possible started on the new farms, and it is certainly a great compliment to Mr. Garrett and to Nodaway county in general to receive the order.

Although the selection of the hogs will be made personally by Mr. Garrett, a man must be secured to take charge of the shipment from New York to Buenos Aires, and he is to be paid a salary of $100 per month during the trip. The man is given an option of returning at once to the United States after the hogs have been delivered or staying in Argentina at the same salary and returning in two years.

Mr. Garrett will make the selection of the man who is to have charge of the hogs on the long trip to South America, and he desires all wen who wish to make application for the position, get in touch with him at the office of the Poland-China Associatioon in this city.

Nebraska Visitors.

Mrs. E. T. Rasmussen of Riverton, Neb., who atatended the commencement exercises of Lindenwood College St. Charles, Mo., and visited friends in St. Louis, returned to Maryville yesterday noon. Mr. Rasmussen came a few days ago from Omaha, where he had been attending a Masonic meeting, and he and Mrs. Rasmussen will spend several weeks with her parents, Mr. and Mrs. H. T. Crane.

GARDNER PROCLAIMS A "BOY SCOUT" WEEK JUNH 6-14

...hout the State to Secure ... Members for the Organization.

Jefferson City, June 7.—Governor Gardner has issued the following proclamation designating the week of June 8 to 14 as "Boy Scout Week" and calls upon the people of Missouri to become associate members of the organization:

"The Youthful American Army of Boy Scouts deserve no small degree of credit for the substantial service they rendered the nation in the great war. Their response to the call for workers in the Liberty Loan and War Savings campaign was quick and effective. They proved themselves experts in locating walnut trees for gun stocks. The Red Cross could always count upon their whole-hearted cooperation.

"The value of the Scout idea consists in conserving the boy power of the nation by training for citizenship, educating through recreation and developing character by the application of the Scout law, 'a daily good turn, without reward.'

"I commend most heartily the nation wide plans for arousing interest and enlisting more substantial and effective support of the Boy Scout Organization. Therefore, I, Frederick Gardner, governor of the State of Missouri, very earnestly recommend that the period from Sunday, June 8, to June 14, be observed throughout the commonwealth as Boy Scout Week.

"In behalf of the Boy Scouts I appeal to the men and women of Missouri to register their support of this magnificent, essentially American organization by becoming associate members that adequate provision may be made for enlarging the usefulness and effectiveness of the movement for training the boys of America in American ideals and citizenship."

BUSINESS WOMEN TO MEET.

St. Louis, June 7.—More than 350 women, reprensenting every state in the country, are expected to attend the first annual convention of the National Business and Professional Women of America which will be held in connection with the third annual convention of the Woman's Association of Commerce, U. S. A., which will be hehld in this city, July 14 to 18, inclusive. Headquarters will be at Hotel Statler. These women represent every line of business and profession.

Problems of reconstruction, including problems of the business woman with her employer, education of the business woman to the necessity of the increased quality of service and to a proper sense of their responsibility to their job, will be discussed at the session.

Lodges Celebrate in Graham.

The I. O. O. F., Rebekah and Modern Woodmen lodges will hold an all day session tomorrow in Graham at Welling's park. At noon a dinner will be served and a program of speeches and music will be given during the afternoon. George Pat Wright will be one of the speakers.

STATE FAIR SCHOOL EXAMS

TEN LADS FROM THROUGHOUT COUNTY IN COMPETITION

FUNDAMENTAL STBJECTS

Lad From Each County in State to Attend School—Free Instruction and Entertainment Offered.

A competitive examination for the selection of a representative of Nodaway county to be held at the boys school of the State Fair Sedalia Aug. 9-14 was in progress this afternoon at the office of County Superintendent of Schools Bert Cooper.

The questions asked are in the three subjects—Agriculture, Geography and Arithmetic, considered by educators as the fundamental subjects of the rural schools. The examination questions are formulated by the officers in charge of the State Fair School, and are along the lines of practical every day problems.

The examination papers will be graded by County Superintendent Cooper, and the lad making the highest grade in the tests will be selected to attend the school.

The boy making the next highest grade will be the alternate and will attend the Fair in the event that the winner is unable to go.

The State Fair School course extends one week, and is of great educational advantages to the lads who are lucky enough to be chosen. One boy from each county is represented in the school and is furnished a short course in practical agriculture. In addition to this he is given free access to all the concessions and amusements on the grounds.

Following are the Nodaway county lads who took the examination this afternoon:

Roland Holloway, Maryville; Earl Gorton, Pickering; Ralph Dowden, Maryville; Russell Clayton, Pickering; Merrill King, Pickering; Leland Medsker, Guilford; James E. Reddick, Sheridan; Walden H. Lemaster, Barnard; Harry E. Wood, Barnard; and Maurice V. Olmstead, Hopkins.

FEDERALS TO MEET FAST MAITLAND NINE TOMORROW

Game to Be Staged on Fair Grounds Diamond at 3:30—St. Joseph Game Pending.

The Maryville Federals will cross bats with the fast Maitland nine on the Fair Grounds diamond tomorrow afternoon in what promises to be one of the classiest contests so far this year.

The Maitland team is composed of ball players of who know the game from A to Z, and many of the athletes are former league stars.

Maitland took the Burlington Junction Boosters to a 4 to 5 trimming last Sunday at the latter's diamond in one of the best exhibitions which have been staged in that locality in several years. The game went for thirteen innings and the crowd was kept on its toes throughout the contest by the air tight playing of both teams.

Manager Black of the local club is dickering with the St. Joseph stockyards team for a game to beplayed here in the near future. It was planned by the St. Joe aggregation to invade the Maryville camp on Sunday, June 15, and the word was passed at that place that a special train would bring a big crowd of rooters on the northern invasion.

The government ownership of the railroads, however, put a hitch in the plans, and both teams are "standing by" until some definite arrangements can be made.

Fay E. Carmichael Lands.

Mr. and Mrs. J. S. Carmichael of Burlington Junction have received word that their son, Pvt. Fay E. Carmichael, had landed in Newport News, Va., May 30. He had been located in France since last August and was in the trenches for fourteen days. Pvt. Carmichael received his training at Camp Dodge, Ia., and has been in military service since May 24, 1918. He was a member of Co. M, 351st infantry, 88th division.

Mr. Gooden is the type of man who should be an inspiration to the younger generation. Keen, alert and wide awake, he would put to shame many a man 20 yeas his junior in physical activity and strength.

GETTING READY FOR THE DECENNIAL CENSUS

Force of 85,000 Employees Will Be Needed for Work—Must Be Done in a Few Weeks.

Washington, D. C.—Uncle Sam is rapidly getting ready to "take stock." To put it more clearly, preparations are well along for the fourteenth decennial census, to be taken in 1920.

The last Congress granted an appropriation for the work, and a force of several hundred clerks is busy in the Census Bureau making the necessary preparations for the huge task, which must be accomplished in a few weeks.

For this immense job, the bureau's regular force of about four hundred employees will be expanded to 85,000 or more. The appropriation which Congress has made for the work is $20,500,000. This amount covers also the ordinary expenses of the bureau during 1919.

The census will include not only enumeration of the population of the United States, continental and insular, but also a canvass of the agricultural, manufacturing, mining and quarry, oil and gas and other interests for all the states as well as for the District of Columbia, Alaska, Hawaii, Porto Rico, Guam, Samoa and the Canal Zone.

For the purposes of the enumeration, the country has been divided into 378 supervisory districts, with a supervisor for each, to whom about 85,000 enumerators will report.

Date Is Advanced.

The actual enumeration will be completed in a few weeks, although it will be several months before results will begin to be known. Nevertheless, the figures will be available much earlier for the 1920 census than was the case in 1910, because this time the census will be as of January 1, instead of April 15, as in 1910. The change was made because it is believed the agricultural census will be more reliable on the earlier date.

Chief interest in the census, of course, will be in the population, but a great many interests require much more detailed information, such as the ratio of males and females, distribution, degree of illiteracy, proportion of whites and blacks, proportion of foreign born to native population and many other facts that can be learned only through Uncle Sam's decennial "stock taking." The 1920 census is certain to bring out many changes, for the past decade has been one of wonderful growth and development.

Next to population, the greatest interest will be in the census of agriculture. This will show the number and acreage of farms in the country and in each state and county; the number of acres of improved land; value of farms and the stocks of machinery; number and kind of live stock, and practically every detail of information relating to agriculture.

The census of manufacturers is taken every five years, unlike the other inquiries. This will be of unusual interest this time because the last census was taken in 1914, when the world was at peace. Since then the greatest war in history has been fought and America has accomplished an industrial expansion that is unparalleled. This census, therefore, covering the calendar year 1919, will present a statistical portrayal of the transition of American industries from peace to war and from war back to a peace basis.

Polk Township Association.

There will be a meeting of the Polk Township Sunday School Association Sunday afternoon, June 8, at 3 o'clock at the South Methodist Church. Every officer is urged to be present, also every superintendent in the township, and all other Sunday School workers who have the success of this work at heart. R. C. SEAL, President.

Mrs. Guy Bowers and daughters, Donna and Jeanne of Carthage, are visiting Mrs. Bowers' mother, Mrs. Anna Neuens. Mr. Bowers, formerly operator at the Burlington station here is now superintendent of a shoe factory in Carthage.

ATTENTION ODD FELLOWS AND REBEKAHS

There will be a memorial exericse, with a Memorial address by Dr. G. S. Cox Tuesday night, June 10, in the Odd Fellows Hall. All Odd Fellows and Rebekahs are requested to be present. Bring your friends.

ALLIES' REPLY IS COMPLETED

TO BE SUBMITED TO "BIG FOUR" MONDAY FOR FINAL DECISION

MATERIAL CONCESSIONS

To Hold First Meeting of League of Nations in Washington Next October.

Paris, June 7.—The Council of Four today completed the Allies' reply to German counter proposals. The reply will be submitted to the Big Four Monday for their final decision. In their reply to Germany it is now certain that the Allies will promise her representation on the commission of experts who are to determine reparations. The Allies have also decided to grant Germany material concessions in upper Silesia. These are the maximum concessions granted as a result of the German counter proposals. Lloyd George, however, is strongly advocating that the Germans be told that the first meeting of the League of Nations the question of admiting them to membership will be taken up, this meeting to be held in Washington next October. Commissioners characterize changes that have been made as making the treaty workable and at the same time not affecting the principles of the original draft. It is confidently expected that the changes will result in the Germans signing the treaty.

ESTHONIANS NEAR PETROGRAD

Communication Cut Off Between Copenhagen and Berlin—Riots in German Capital.

London, June 7.—Communication has been cut between Copenhagen and Berlin, according to a Copenhagen dispatch to the Exchange Telegraph company this morning. The dispatch stated that it was believed in Copenhagen that riots were taking place in the German capital.

London, June 7.—A central news Copenhagen dispatch says the Esthonians have reached Ratchins, thirty-five miles southwest of Petrograd.

PROPOSE $50.000 ROAD BOND AT INDEPENDENCE

Committee Appears Before Special Session of County Court Thhis Afternoon—Expect Favorable Action.

George A .Hepburn, S. H. McCorkle, J. T. Logan and J. A. Porch, members of the township board of Independence township appeared before a special session of the County Court this afternoon to present a petition calling for a proposed $50,000 road bond issue at that place.

The Court is expected to take favorable action on the petition and will probably make the selection of the time of the election and other details late today.

Cancel Rural Carrier Exam.

Democrat-Forum.

Dear Sir:

I am in receipt of a communication from the United States Civil Service Commissioner under date of June 4th, 1919. Advising me that Rural Carrier Examination scheduled for this office June 14th, 1919, has been canceled.

Respectfully,
ELDON W. IRVIN,
Local Secretary.

OFFICERS DENY ARREST REPORT.

Salina,, Kan., June 7.—Rumors circulated that Cashier Lefferdink of the defunct Kansas State Bank had been arrested in Lincoln, proved unfounded when Lincoln officials denied the report.

Cooper Gooden's 79th Birthday.

Cooper Gooden, recently appointed as dog tax enumerator and collector, will celebrate his seventy-ninth birthday tomorrow and just to show that he is still a "young" man, he has promised to dance a jig.

Trapp Funeral Tomorrow.

Funeral services for John L. Trapp, who died Thursday evening at his home in Skidmore, will be held at 2 o'clock tomorrow afternoon at the Christian church, conducted by the pastor, Burial will be in the Masonic cemetery.

GERMAN LEADERS BEHIND RECENT BOMB OUTRAGES

Evidence Brought Out at Trial of Anarchists Show Huns Responsible for Many Plots.

Geneva, June 7.—Evidence introduced at the trial of a band of anarchists taken into custody here proves that German military and political leaders have been behind the plots costing thousands of innocent lives. It was revealed that they are indirectly responsible for the bomb outrage in the United States.

"LITTLE DEER" ATTRACTS THE ATTENTION OF MANY

Animal Captured by John Meek Several Days Ago—Becoming Very Tame.

When the word was spread this morning that a "little deer" had arrived in town, there was much fluttering of masculine hearts, and many were the visions of a dainty, sparkling gem of femininity.

But such was not the case. The "deer" was of the four-footed, smooth coated species and is the property of John Meek, who lives about five miles southwest of this city.

The little animal was captured several days ago, and Meek has been feeding it on milk. It has become very tame and follows him about like a dog.

NEW ORDER DESIGNED "TO KEEP NAVY FIT."

Washington, D. C.—Affecting every officer on the active list, the Navy Department has issued an order requiring regular and periodical physical exercise and outlining a systematic plan of weekly physical tests. The plan is intended to keep the older officers in physical condition for any emergency and to carefully develop the younger officers.

Several years ago President Roosevelt issued a celebrated order requiring every officer to complete once a year one of the following strenuous physical tests: Walk fifty miles during three consecutive days, in not more than 20 hours; ride horseback a distance of 90 miles during three consecutive days, or ride a bicycle a distance of 100 miles in not more than fifteen hours in three consecutive days. This order applied to both army and navy officers.

The new army order is in accordance with the modern idea that an occasional strenuous test is of far less value than regular exercises taken at regular periods, and is intended to "keep the Navy fit."

BEGIN REORGANIZING THE MISSOURI NATIONAL GUARD.

St. Louis, June 7.—At a meeting of fifty officers of the 138th Infantry held at the 1st Regiment Armory here, two committees were appointed to take up the active work of reorganization of the 1st and 5th Regiments, Missouri National Guard.

Those appointed on the committees to organize the old 1st Regiment are Major Norman B. Comfort, Major Joseph J. Koch and Lieut. Col. J. E. Lowe The committee to reorganize the 5th Regiment includes Col. L. K. Robbins, Major James L. Barngrove and Lieut. Col. E. G McMahon, who is still on duty in France.

It was decided that the reorganization units meet on certain days each week.

A daughter was born Sunday, June 1. to Mr. and Mrs. John Meek, living southwest of Maryville. She has been named Marilyn.

GENERAL STRIKE ON IN BERLIN

100,000 REPORTED TO BE OUT IN PROTEST STRIKE

LEVINE EXECUTION CAUSE

Unrest Reported Throughout Entire Germany—Late Reports Say "No Bloodshed Yet."

London, June 7.—Berlin is in the throes of a general strike. A dispatch reaching London today said one hundred thousand had gone on a strike there as a protest against the execution of the Bolshevik leader, Levine. In a Munich dispatch it was stated that the strike started Friday and that the workers did not wait for the sanction of the leaders but walked out when the news of Levine's execution was circlated. A dispatch at noon stated: "no bloodshed reported yet." Unrest is reported all over Germany as the result of Levine's execution.

PERSHING WANTS TO FLY ACROSS ATLANTIC

General Is Willing to Do Any Work Necessary on Trip in British Dirigible.

London, June 7.—General Pershing has requested that he be permitted to cross the Atlantic in the RP-34, the British dirigible when it attempts its flight across, according to a dispatch issued by the Exchange Telegraph Company. It was stated that the request will likely be granted. Pershing is reported to have said that he would do any work on the voyage that would be necessary.

Washington, June 7.—War department officials today scouted the report that Pershing had asked permission to be a passenger on the British dirigible to attempt a trans-Atlantic flight.

OKLAHOMA WHEAT CROP DAMAGED BY HAIL STORM

Strikes in Grady County Cutting Wide Swath Eastward to McClain—Worst in Many Years.

Chickasha, Okla., June 7.—The worst hail storm in years struck the northern part of Grady county last night, leveling crops and affecting a strip a mile and a half to three miles wide from west of Pocasset eastward to McClain County line. Wheat ready to cut next week was practically destroyed.

TO REDUCE STANDING ARMY

Recommended by the House Militaary Affairs Committee—400,000 Enlisted Men, 22,000 Officers.

Washington, June 7.—Material reduction in the cost and size of the standing army proposed by Secretary of War Baker, was recommended today by the House Military Affairs Committee. The total appropriation will provide for four hundred thousand enlisted men and twenty-two thousand officers.

WEATHER FOR TODAY

Unsettled weather tonight and Sunday, probably local showers; not much change in temperature.

TO COMPLETE ORGANIZATION OF AMERICAN LEGION POSTS

Adj. Gen. Henry C. Clark Given Authority to Extend Work—Expect 100,000 Members in Missouri.

Jefferson City, June 5.—Adjutant-General Henry C. Clark, state chairman of the newly organized American Legion has received authority to complete the organization of local posts in every county, town and city in the state. One or more local posts, composed of honorably discharged soldiers, sailors and marines who served either in this country or abroad may be organized in any town, county or city. Posts will be named for a deceased soldier, sailor or marine, as desired, provided there be not less than fifteen charter members. The legion is strictly non-political and the discussion of political questions or candidates is not permitted at its meetings. Its objects are purely fraternal and to perpetuate the memories and keep alive the comradeship of those who served in the military forces in any capacity during the war with Germany. All distinction of rank are abolished at its meetings.

Adjutant-General Clark says the membership of the legion in Missouri will be 100,000 by the time the November convention is held.

Corsets for the Fat Men.

London, June 6.—Men with a paunch should wear corsets. That was the advice Dr. Leonard Williams gave the Peace Nursery and Mid-wifery Conference. His reason is based upon health principles.

"Aboriginal man," said Dr. Williams, "certainly was a four-footed animal. The abdominal construction was intended for that posture. Since human beings began to walk on their hind legs the position of abdominal organs had been thrown out of gear.

"People who take plenty of out-door exercise and athletes might get on very well without corsets, but persons who live a sedentary life require some kind of support as given by corsets."

Dr. Williams said people who wore tight collars prevented proper draining of their brains and thereby suffered bad tempers.

"Since women gave up wearing tight collars they have become sweeter tempered," he said.

Sixth Free Hotel Opened.

Fifty canvas buildings which served last summer as hospital wards for American soldiers at Chateau Thierry have been obtained by the American Red Cross and transplanted to the site of the Paris Exposition, where they are now being used to shelter and feed 1,600 American soldiers on leave in Paris. This is the sixth free hotel which the Red Cross has established in Paris for the care of the American boys who visit the city on sightseeing trips.

If in need of Glasses call on an exclusive Doctor of Optics, who is competent. JOHN LE GRAND BAKER is Maryville's exclusive efficient Doctor of Optics. 2 blocks west of Postoffice.

NEWS FROM

NODAWAY COUNTY TOWNS

Parnell Sentinel.

Dr. John Nigh, who was a captain in Motor Truck Transportation No. 701, arrived in Parnell late Saturday night. Dr. Nigh was among the first to sail for France and for many months was located at Nazaire, France, in Base Hospital No. 1, but was later transferred to the Motor Truck department. He says he was mighty glad to get back to the good old U. S. A. He is a son of Mr. and Mrs. L. A. Nigh.

Frank Auer of Clyde, who has been substitute rural route carrier on route one out of Maryville, for nearly three months, has commenced his duties on route 2 out of Parnell. This is the route that E. E. Yetter has held down for over eighteen years, but who commenced carrying the mail on route 1 Monday morning.

William H. Young, living four miles north of Sheridan, and Mrs. Flora King of Parnell were married at the home of the bride Monday evening about 5 o'clock by Justice of the Peace L. C. Gooden. Mrs. King has been a resident of Parnell for the last thirty years and is the mother of Charley Teeters who lately returned from overseas with the A. E. F. Mr. Young has been a resident of Sheridan ever since the town was laid out. He is a farmer.

Conception Courier.

The contract for the erection of the addition to the school house was let Wednesday evening to R. L. Ficklin of St. Joseph. Work will be commenced at once.

John H. Nolen, was in the city yesterday and during an interview with him we were informed that the work of organizing a Drainage District, beginning north of Ravenwood and running thence south to Whitesville, along the Platte river, is progressing nicely and is now practically assured. This appears to be a good proposition, and the farmers owning land along the Platte in this section will, no doubt, help push this matter along.

Born to Mr. and Mrs. Chas. A. Teson of Clyde, June 4, 1919, a boy.

Guilford Times.

Carl Wray and wife left Wednesday to spend about ten days in Excelsior Springs to take a rest. Carl is entitled to a rest as he is a busy man, working early and late, often to accomodate some of his friends. Carl is about fifty years old and is a great booster for Guilford and vicinity. Though in the prime of life one can overwork himself until a rest can overwork himself until until rest is absolutely necessary.Such however is not the case with Carl but he feels like a short rest from the routine of the banking business will be appreciated.

John McKee received a telegram Monday morning from his son, Frank, who had just landed from his return trip overseas. He is located at present at Camp Upton, New York.

J. G. Skidmore last week sold his interest in the 320 acres of land, 3 miles east of Cawood to his brother, Lawrence, who was a partner with him.

Martin Pederson sold his 104 acre farm the other day to Volley Kilmel for $167½ per acre. Martin will likely locate in town somewhere.

Clearmont News.

During the thunder storm of Sunday morning the garage on the Wm. Pence farm, on which Valdo Lawrence lives, was destroyed by fire, together with one auto and all the other contents. Mr. Lawrence discovered the fire between 3 and 4 o'clock and at once notified the neighbors by phone, but the entire building was on fire when first discovered and it was impossible to save anything. The car was insured for $1,000 but there was no insurance on the building. It is thought the building was struck by lightning.

The Town Board at its regular meeting passed an ordinance fixing the poll tax for 1919 at $4.00 if paid in money; if paid in work, two days for a man or one day for man and team. J. H. Andrews was appointed as street commissioner, and it was decided to commence work as soon as possible.

The Hopkins Journal was bragging about their blue grass over there, in last week's issue, reporting some 50 inches long. That's nothing, Brother Morehad. Bert Pfeiffer brought in a bunch from the T. J. Wallace farm that measures 66 inches, which is now hanging up in the Jackson Bank. Then Guy Clary found a bunch on his farm just west of town that measured 69 inches in length. If any one can beat it, bring it in.

At the Dr. Dowell public sale last Saturday afternoon, Perry Farrens bid in the Doctor's fine residence property for $3100. Perry informs us that he will probably move to the property in a short time and make it his home and quit active farming.

Jake Burch is the champion hog raiser in this section, if not in the county. He informs us yesterday that he has right around a thousand spring pigs. Who can beat it?

Burlington Junction Post.

William Belding and Betty Lundeen of this city were united in marriage at Clarinda Wednesday afternoon. They will make their home on the Lundeen farm west of town.

Another step toward the erection of a modern hotel was taken this week after a lull because of being too busy along other lines. Most of the amount necessary has been subscribed and Ed Caldwell says there will be no trouble in raising the balance. Applications for leasing the building are coming in One received the other day offered ten per cent on the lease.

R. D. Corken has moved into the Tobin house, formerly occupied by Dr. L. E. Wallace, who recently moved into the Hannah Miller home. The Corkens will "camp out" until R. D. decides upon where he will locate. L. G. Yaple and family moved into the R. D. Corken home Monday and Judge Jesse Robertson is expected to set up housekeeping in the family residence here formerly occupied by the Yaples.

Hopkins Journal.

Mr. Novinger owner of the building occupied by the Novinger restaurant on Third street, has sold same to John D. Stevens, owner of the Owl Pharmacy he consideration being $4,000. The restaurant stock has been sold to Tom Roberts who will consolidate it with his restaurant on Barnard street, leaving but one restaurant for Hopkins which is all that is needed. Mr. Stevens will move his drug stock to the new location the first of July and will make his store one of the most attractive in this part of the state.

We learn that Dr. Maxwell of Hopkins may now be known as Captain Maxwell, having received his promotion about May 10. The Captain is still receiving surgeon at Hospital No. 113 and we are glad he has made such a good soldier that he may now wear the two silver bars on his shoulder. He is looking forward to his return home in July or early August.

Mrs. Omer Edmonds of Kansas City, has been a guest the past week of relatives and friends in this city. "Deac" came as far as Pickering with her where they visited in the home of his sister, Mrs. Ed. Herbert, but could not spare the time to come on to this city. He still travels for Marshal Field & Co.

Charley McMaster of Twin Falls, Idaho, visited in Hopkins and vicinity over Sunday. He had been in the western part of Missouri buying pure bred Shorthorn cattle shipping two car loads west last week, and high priced ones, too, the highest priced cow in the shipment costing him $1,125. He will sell the cattle in a big sale to be held in Twin Falls soon.

Skidmore News.

Along about 2:30 o'clock last Sunday morning, lightning struck and set fire to a barn on the Clay Wall farm, south west of Skidmore and when discovered the fire had gained sufficient headway to make saving the structure, which was old and dry, out of the question. Together with the building, about three dozen hens, five sets of harness, ninety bushels of corn, three tons of baled alfalfa hay and some sheaf oats were consumed. There was no insurance on the building and only a small amount, $150, was carried on the contents.

Miss Carrie Torrey came from Omaha the latter part of last week and remained until Sunday evening with home folks. She was accompanied back to Omaha by her mother for a few days visit. From Omaha Mrs. Torrey will go to Chicago where she expects to spend about six weeks visiting another daughter, Mrs. Arthur Cramp.

Rev. and Mrs. Reuben Barrett expect to leave the first of next week for a several weeks visit with relatives and friends in Pennsylvania and New York. They are called there at this time by the illness of Mrs. Barrett's sister.

Twenty-one spring fries weighing 47 pounds were sold to a local produce dealer by M. A. Sewell, Tuesday, June 3, for 42 cents per pound or a total of $19.74. 94 cents each for a 2-pound chicken. With rifles at this price, the poor printer's family can only look on with longing eye and an empty stomach while those who are blessed with opulence regale themselves upon this high-toned yellow legged delicacy.

Barnard Bulletin.

George W. Cole closed a deal Monday whereby he bought the west 40 acres of the Lewis Snapp farm west of town.

Ollie Breit was taken seriously ill Saturday night and was hurried to the hospital in St. Joseph Monday when he was operated on for appendicitis. Latest report Wednesday was that he was in a critical condition but was doing as well as could be expected.

George Daniels, manager of the Mutual Telephone Co. of Barnard, went to St. Joseph Wednesday night to consult with the manager of the Bell Telephone Company, in an effort to secure direct service with St. Joseph over the long distance lines. As it is now, one calling St. Joseph must call Maryville which causes considerable delay.

Elmo Register.

Emma Norris bought one 40 of the James estate, and L. W. James the balance of the farm. Elmas and Frank taking theirs in money.

A surprise was given the family of Zach Johnston at the W. M. Johnston home on Wednesday evening, June 4, by their many friends, celebrating their return to Elmo. The crowd present taxed the capacity of the Johnston home, and all report a merry time.

The Elmo school board met last Thursday and definitely decided to add the twelfth grade to our high school, and extended the term to nine months. This will place us on the list of approved high schools, and give our children an equal chance with others who have approved schools. The vote of the board was unanimous on both points.

Depend on our Want Ad. Column.

ANTI-SUB FLOTILLA TO MAKE VISIT TO ST. LOUIS.

St. Louis, June 7.—Elaborate plans are now being planned for the reception of the United States anti-submarine flotilla which will arrive here the first of next week. The flotilla is now at Memphis, Tenn., and is due to make but one stop, except at night time, before reaching here. This stop is at Cairo, Ill.

The United States submarine chaser B. C. SC-3, forerunner of the flotilla, which arrived here unannounced Tuesday afternoon, has attracted much attention. Hundreds have visited it, examining its mechanism and conversing with the crew.

The flotilla is cruising the Mississippi and its larger tributaries in the interest of naval recruiting.

SHAVING BRUSHES CARRY ANTHRAX GERM, 'TIS SAID.

Boston, June 7.—Health Commissioner Woodward has warned barbers, druggists and department stores in the state against the possibility of shaving brushes containing the germs of the deadly disease of anthrax.

Dr. Woodward states that the Federal health investigators have traced the source of the disease to the same material from which shaving brushes are made. He recommended that all brushes now on the market which do not bear the name or trade mark of the manufacturer should be returned or disinfected.

Obituary.

Conelia B. Faubion, youngest child of Mr. and Mrs. S. A. Faubion of Maysville, Mo., was born March 27, 1885, near Oak, DeKalb County, Mo., and died June 1, 1919, at Thermopolis, Wyo., after a week's illness. Interment was in Union chapel cemetery, near Helena, Mo., June 6.

Miss Faubion was a young lady of rare refinement and culture. Those who knew her well found in her the traits of noble womanhood that is always cherished in the best society. Conelia had made several visits to her sister's home, Mrs. E. W. Willough by and family of West Seventh street, and had made many friends here. Her last visit was here last September and upon leaving stated that it was her intention to see western America and it was while on this venture that her life was made short.

Her father and mother, two brothers Benjamin Faubion of Cosby, Mo., and William Faubion of Knoxville, Tenn., and one sister, Mrs. E. W. Willoughby including a number of near relatives survive her.

Mr. and Mrs. Sorenus E. Jenson of this city announce the birth of a son Wednesday, June 4.

NEURALGIA or Headache—Rub the forehead and temples with VICK'S VAPORUB "YOUR BODYGUARD" - 30¢, 60¢, $1.20

LONG LASTING

Satisfaction for the sweet tooth.

Aid to appetite and digestion — benefit and enjoyment in LASTING form.

And only 5 cents a package.

The Flavor Lasts 107

"Camouflage,"
"Bolsheviki,"
"Barrage."

Turn the pages back a year or so and it's a safe bet that none of us could even pronounce these words let alone tell their meaning.

Today they are in most every school boy's vocabulary.

Such is the power of advertising. Whether it be the name of a man or the name of a breakfast food, advertising in one or more of its many forms makes it a household word.

Every time you advertise you are building your name into the minds of your customers and prospective customers just that much firmer.

You are making it just that much more difficult for your competitor. whether he is across the street from you or in the next town, to edge his way into your folks' minds. Advertising won't get you all the business there is in your community but it will get you a mighty big short of it.

Social. Clubs Churches

At a Dinner Party.

He had on a shoe too tight.
Entree wasn't seasoned right;
Not a drop of wine in sight!
Well he knew he was abused;
Wore the scowl of one, ill-used.
D—n! He wished he had refused.
Being human.

On that bleak and fateful day,
She had seen her life turn gray.
Now, was gayest of the gay.
Tho a sword was in her breast,
Laughed she, with unwonted zest.
Merry were her smile and jest,
Being woman.
—L. W. S., Denver Post.

For Maryville Visitors.

Mrs. M. B. Woolridge and her daughter, Mrs. Anna K. Wehrman, 106 S. Seventeenth street, entertained at a 6 o'clock dinner Thursday evening for Mrs. George Baker and daughter, Carrie Margaret of Maryville, Mo.—St. Joseph News-Press.

For Miss Bulmer.

Miss Wilda Keef gave a line party at the Empire theater last night for Miss Florence Bulmer of St. Joseph, who is her guest. Refreshments were served at the Candy Kitchen after the performance. Her guests were Misses Bulmer, Mildred Eckert, Clio Coler, Marie Price, Alice Peery, Mabel Cook, Cleona Kirch, Pauline McDermott and Mildred Shinabargar.

Bloomdale Auxiliary.

The Bloomdale auxiliary met in the Red Cross rooms at the home of Mrs. Parl Runnels. The following officers were elected: Mrs. Will Boatright, president; Mrs. Will Lett, vice president; Miss Margaret Shannon, secretary; Lerita Lett, corresponding secretary and treasurer. The remainder of the afternoon was spent in quilting. It was decided to have an all-day meeting at which time the Red Cross work would be completed and the auxiliay discontinued. The members present were Mrs. Robert Aley, Mrs. Abe Byerrum, Mrs. Will Boatwright, Mrs. Frank Maxon, Mrs. Edmond Harvey, Mrs. Bart Shannon, Mrs. Albert Hinton, Mrs. Parl Runnels, Mrs. Walter Runnels, Misses Mina and Lois Harvey, Alma Carter, Vivian Boatwright, Margaret Shannon, Ruth Maxon, Eldena and Lillian Runnels and Joseph Paul Aley.

Mrs. Robinson Hostess.

The June meeting of the Woman's Missionary Society of the Christian church was held yesterday afternoon aat the home of Mrs. J. B. Robinson, with Mrs. J. R. Brink as assisting hostess. Mrs. Brink was in charge of the program, which was opened with devotions led by Mrs. Fred Miller. The lesson subject for the meeting was "The Call of the Orient for Leaders." Mrs. Robert Lyle talked about "Christian Colleges for Women of Asia," and Mrs. J. J. Heifner had for her subject, "The Trained Oriental, the Most Acceptable Leader." Mrs. F. P. Robinson and Miss Helen Zenor of the State Teachers College gave special musical numbers, after which Mrs. Lyle reported her trip to Kansas City where she attended the commencement exercises of the nurse's training school in Christian hospital. Mrs. Lyle's daughter, Miss Vivian Lyle, left last week to enter the school. Committees were appointed for the coming year. The benediction by Mrs. A. M. Slatten closed the program and the remainder of the time was spent socially. Mrs. Barlow, a new member, was received into the society. There were about fifty present including the following visitors: Mrs. J. D. Richey, Mrs. G. B. Roseberry, Mrs. Ed Egley, Miss Mary Taylor, Miss Virginia Lawson, Mrs. F. P. Robinson, Miss Helen Zenor, Mrs. Lee Crossan, Mrs. J. S. Shinabargar, Mrs. Hosea Torrance, Mrs. Ed Hamlin, Miss Anna Weber of Winner, S. Dak., who is attending the State Teachers College, Mrs. Ira Richardson and Miss Bain.

Farewell Party.

A party was given last night at the home of Mina Gett in honor of Miss Edith Pfeiffer, who will soon leave for Eckley, Colo., to make her home. Games were enjoyed and refreshments were served. Those present were the honor guest, Viola Jones, Esther Pfeiffer, Esther Gilbert, Dale Skinner, Lavisa Swinford, Merybel Gett, Ruth Skinner, Katherine Wagner and Sterling Gett.

A Lesson in Addition.

A. P. Sandles of Ohio, the well known agricultural leader, submits a lesson in addition that merits the most careful consideration of every Missourian, as follows:

Twenty plus fifty is more than fifty plus twenty. This rule is true when life's work is added up.

"Today, a boy is twenty. A man is fifty.

"Today, we give to both a scientific knowledge of agriculture, and the secret of growing more crop per acre.

"Three score years and ten, they live and labor.

"At the end of life the boy's product, from soil and toil, will exceed and excel that of the man who waited until fifty to begin to farm the best he could.

"After the lesson was learned, the boy had fifty years to labor. The man had only twenty.

"Persuading the boys to start aright in life, is building better than we know. The good that's done reaches into years far ahead.

"There is gold in dirt. The riches of a commonwealth are multiplied by giving to the farmer boy a skillful hand and a cunning brain.

"He who plows and plants adds wealth to the nation. Twenty plus fifty is more than fifty plus twenty."

Card of Thanks.

We wish to thank our many friends for their kindness and sympathy shown us at the death of our beloved daughter and sister, Conelia B. Faubion, and also for the beautiful floral offerings. The Faubion Family 7.

Hugh Honaker and Jim Ellsworth, Elmo soldiers, returned to their homes there yesterday. Mr. Ellsworth saw overseas service.

Do you know the power of Democrat Forum Want Ads?

FORCED TO FINE DOG HERO

But New York Justice Took Into Consideration Animal's Brave Deed in the Past.

Two medals bestowed for bravery hung from the collar of Jim, a Great Dane, when he appeared in the West side court the other day, charged with having been unmuzzled in public, says the New York World.

Patrolman Joseph B. Ward, attached to the health department, said he had seen Jim in a car without a muzzle. Jim would not let the policeman come near when an attempt to serve the summons was made, Ward testified.

Harry Gilpin, a druggist, told the magistrate about Jim's heroism. Mr. Gilpin and his daughter were asleep in their house one night in 1916, when a fire started. Jim was running up and down outside when the firemen arrived. He failed to make the firemen or the crowd understand what the trouble was. So he darted into the smoke and fire and dragged out first Mr. Gilpin and then Miss Gilpin, both overcome.

For this Jim received the [illegible] medal that year and Miss Gilpin gave him another. Recently the Alps club of Riverdale honored him.

"A dog that is as brave as you are deserves consideration," Magistrate Nolan said, "but you weren't muzzled and you resisted the officer. Fine $1."

Jim carried the bill in his mouth to the clerk of the court and took the receipt back to Mr. Gilpin.

Submarine Signals.

During the war, as is well known, submarine sound-signaling made great strides. In Schiffbau an account is given of a device employed in Germany. In this device the receiver is secured to the outer layer of the ship's hull from inside and is filled with water, the liquid being in contact with the outer plating of the vessel. The essential point in this device appears to be that the means for producing the sound are placed externally on the wall of the liquid tank, whereas in most cases the sounding device has hitherto been arranged inside the tank or receiver. Another special feature is an automatic arrangement for maintaining constant, or adjusting, the level of the water, which can be manipulated externally. —Scientific American.

Wrong Kind of Clothes.

Little tragedies occur to the men who have to chronicle the larger ones. On Thursday evening our "special correspondent" (arrayed in a silk hat and the best morning costume) arrived to find his mission meant the late train to Whitehaven and a plunge into a burning mine.

He telephoned at once for the proper clothes, but the message must have miscarried in the ear of the careful maid, who packed up a valise of dress clothes and shirts for the man who was to go down the mine.—London Chronicle.

Go to Church Tomorrow

The announcements of various Churches printed herewith are invitations to you to attend their services.

Baptist.

First Baptist, corner Market and Jenkins, W. C. Ferguson, pastor. Sunday school at 9:30 o'clock, I. E. Tebow, superintendent.

The morning services will be conducted by Dr. S. E. Davis of the State Teachers College. His subject will be "Chirstian Liberty." Dr. Davis is a public speaker of splendid ability. Nearly all of the faculty at the Teachers College are active in church work. It means much to our community and state in the splendid influence for religion that they exert. Dr. Davis is a splendid Bible student and forceful in his presentation of moral and religious subjects.

The pastor, with a gospel team, will present the June drive of Missouri Baptists at Clearmont in the morning and Elmo in the afternoon. Missouri Baptists are raising a large Endowment Fund for their aged ministers, a Church Building Loan Fund, and money for the B. Y. P. U. Assembly at Ironton.

Rev. W. C. Ferguson will occupy the pulpit at night services. The ordinance of baptism will be administered after the evening service.

The morning anthem will be ,"Sun of My Soul" At night the choir will render the anthem "Love, Rest and Home."

The Children's Day Program has been postponed until Sunday night, June 15.

Presbyterian.

First Presbyterian, Main and Jenkins. Dr. S. A. Colle, pastor. Sunday school at ten o'clock, H. P. Swinehart, superintendent. Morning church worship at 11 o'clock. Children's Day program. Evening worship at 8 o'clock Anthem, "The Valley of Peace," (Meredith). Sermon by pastor, subject "The Menace of Radicalism; its Antidote."

South Methodist.

Methodist Episcopal, South, Second and Buchanan streets, R. C. Holliday, pastor. Sunday school at 9:30 o'clock. Morning worship at 11 o'clock. Brief communion address followed by sacrament of the Lord's supper. Epworth League at 7 o'clock. Evening service at 8 o'clock. Sermon subject, "The Reality of Sin."

Methodist.

First Methodist, Main and First streets Dr. Gilbert S. Cox, pastor. Sunday school at 9:30 o'clock. Preaching at 10.45 o'clock by the pastor. Sermon subject, "The Spirituality of Jesus." Anthem, "Tarry With Me," (Neidlinger). Duet, "Lead Kindly Light." by Miss Garrett and Mr. Mutz. Epworth League at 7 o'clock. Evening service at 8 o'clock. Second of series of sermons on Making Religion Safe, subject, "Mormonism, Eddyism and Adventism." Anthem, "Abide With Me" (Neidlinger). Solo, "Christ in Flanders," (Ward Stephens.)

Christian.

First Christian, Buchanan and Third R. E. Snodgrass, pastor. All the services of the church at the usual hours. Morning sermon subject, "Walking With God." Evening subject, "The Eleventh Commandment." A special program is arranged for the Senior Endeavor at 7 o'clock. Subject "Conditions Necessary for World Peace." The committee selected to put on the membership drive of the young men's class will meet at the church tomorrow afternoon at 3 p. m.

Scientist.

First Church of Christ, Scientist, 206 South Main street.—Sunday school at 9:30. Morning worship at 11 o'clock. subject of lesson sermon, "God, the Only Cause and Creator." There will be no Sunday night service. Reading room in church building open each Wednesday and Saturday afternoon to the public. Mid-week prayer service Wednesday night at 8 o'clock. Everyone welcome to all services and to the use of the reading room.

Catholic.

St. Patrick's, Buchanan and First. Rev. Father Henry F. Niemann, pastor. Low mass at 8 o'clock a. m. High mass at 10 o'clock.

St. Mary's, South Davis street, Rev. Father Odillo Scheiber, pastor. Low mass at 8 o'clock a. m. High mass with hymns at 10 o'clock.

Layers Need Animal Feed.

Chickens eat a large amount of animal matter in the form of insects, worms, and other low forms of animal life when allowed to range at will. If the poultry keeper is to get the best results from his fowls in winter he must furnish a substitute for this class of feed. For this purpose green cut bone, meat or fish scraps, and animal meal may be used. Green cut bone is usually fed by itself, while the scraps and meal may be readily mixed with the mash. Cut bone consists of green or fresh bone sliced or shaved into thin pieces by a bone cutter. Bones fresh from the butcher have more or less meat adhering, and the more of such meat the better, for the combination of bone and meat is excellent for producing eggs. Where a good supply of fresh bone can be obtained regularly it is very useful, but it can not be kept sweet for such long periods as the scraps and animal meal. Green cut bone should be fed carefully and in a sweet condition, otherwise bowel trouble may result. One pound a day is sufficient for 20 hens, but not over one-half pound should be fed to that number when first beginning to feed it. From one-half to three-fourths pound of animal meal or meat scraps may be fed to 12 or 15 hens. Any form of meat is likely to loosen the bowels of the hen when first fed, and the hens should be watched carefully and not fed too much. After the fowls have become accustomed to the animal meal or meat scraps it may be kept constantly before them.

Cook Funeral Today.

Funeral services for Marvin Cook who died Wednesday afternoon at the County Farm, were held at 2:30 o'clock this afternoon in Graham. Burial was in the Graham Cemetery.

ESSEX MOTOR CARS

Essex Popularity Grows

Note Their Increasing Number On the Streets and Ask Their Owners
Sells at $1395 f. o. b. Detroit

Hailed As A New Leader

All who have seen the Essex will understand how difficult it is to appear temperate in our claims for it.

People are saying the most enthusiastic things about it. They like its light weight and the way in which it combines the economy of the cheap car with the quality, endurance, comfort and performance of the large costly automobile. Motorists in every section are praising the Essex. Tens of thousands have ridden in it. A million have seen the Essex. All hail it a new leader.

"It Is THE Light Car"

That in a sentence expresses a view of practically everyone.

It describes their feelings as to its type, its value and its distinctive performance. Motorists have long talked of the car that would be enduring and comfortable to ride in that would be neither heavy nor costly to buy or operate.

They describe the Essex as being "the car" that fills that field.

And they have long wanted a light car that they would not have to apologize for because of its appearance. So their expression, "That is THE Light Car," describes their feelings concerning the Essex.

When Can I Get an Essex?

That is the question all are asking.

Thousands of course have already been shipped. They are going out from the factory in increasing numbers every day. But orders are also piling up and from the first we have had waiting lists.

It is not a question of selling the Essex during the next several months. The question will be "Who will get them?" If you are to be an Essex owner you must not delay ordering.

Everyone who knows the Essex is enthusiastic for it. All are talking about it. You can understand something of Essex popularity if you will listen to what motorists are saying. Ask any owner. If you haven't ridden in an Essex there is a pleasant experience in store for you.

IT JUST CAN'T BE DONE.

"Cave Lady" Wife Kicked Him, the Hubby Says, But Her Skirt—

Chicago, June 7.—It can't be done! Here's telling the court and the world, and proving it. If you could get one look at the lady in the case and the tube skirt you could see for yourself why not.

L. E. Bergeron testified before Judge John L. Sullivan in the superior court that his wife, Emma Bergeron, was extremely cruel to him. She kicked him and knocked him down in cave-lady style. And he only weighed thirty or forty pounds more than she at that.

Whereupon Attorney Thomas J. Holmes, representing Mrs. Bergeron, placed his client on the stand and favored the court with a view of the living original.

"It can't be done, if the court please" the witness testified, "not in these days and in this kind of a skirt. "See," and she illustrated her testimony by a vicious swing of her right foot that lifted it four inches off the floor and nine inches in front of her left foot—and no farther.

That kick might have jarred a mouse or a butterfly off balance, but a full grown man—never.

The court saw, and ruled accordingly. He dismissed the husband's bill for divorce despite a score of witnesses and Mrs. Bergeron's crossbill for divorce, which also charged cruelty.

And now you know why the women have quit kicking.

WAR NURSES TO RECEIVE $60 BONUS ON DISCHARGE

Nurses who have been discharged from the service of the United States will receive the $60 discharge bonus being given soldiers, sailors and marines, according to announcement by the federal government. Those who are discharged hereafter will receive this bonus on the same roll or voucher upon which they are given their final pay.

Section 1406 of the Revenue Act, approved February 24, 1919, authorizes the payment of a bonus of $60 to officers, soldiers, field clerks, and nurses of the Army upon honorable discharge, resignation or otherwise. This bonus is not payable to the heirs or representatives of any deceased soldier.

Nurses who have been discharged and have received their final pay without the $60 bonus, should make application to the Zone Finance Officer, Lemon Building, Washington, D. C., enclosing their discharge certificate or military orders for discharge, or both, if both were issued. Nurses are advised to secure attested copies of discharge certificates before forwarding them.

For further information regarding this, apply to the local Red Cross Chapter or the Division Department of Nursing Service.

BOY SPILLS THE BEANS ABOUT SIS'S NEW FELLER.

Smith Center, Kan., June 7.—The Methodist Sunday School here was "shocked" and amused when Willie Harris, a member of a little boy's class, betrayed some secrets about his sister.

"My sister has a new diamond ring," piped little Willie out in class.

"Hush," warned the teacher, who scented the giving away of a secret, as she blushingly pointed her finger at him.

"Well, she has," Willie reaffirmed, "and paw says it's a good one, because her beau had to sell his best mule to pay for it."

ROAD TO SUCCESS

Obey General Order No. 1, Which Is Simply, Find Out!

Heads of Big and Little Business, Who Do This, Will Be the Winners in the Great Industrial Battle Now On.

Find out! That's general order No. 1 in American big business.

Can Du Ponts, who made three-quarters of all explosives used against Germany, swing that vast machine into a useful purpose of peace?

It hired 2,000 chemists, set them to research work and found out!

Can the United States double its wheat product and add a half to its meat supply? Spend $25,000,000 in research work along agricultural lines as it did two years ago and find out!

How can Standard Oil utilize every drop of that black ooze which pours from thousands of oil wells? By employing chemists and engineers who can find out.

Why does Armour have 125 subsidiary companies, many of them highly profitable, and which as the elder Armour said utilize every part of the pig but the squeal? Because it spends an immense sum to carry out that general order No. 1 of all big business.

Find out!

There are in the United States today 40 concerns, each of which spends anywhere from $100,000 to half a million annually on this great game of finding out, writes "Girard" in the Philadelphia Ledger.

It is the supreme day of the expert, the engineer and the chemist. It is the era of unlimited research work.

Is leather too scarce and expensive? Find a substitute.

Is there a famine in white paper? Set your researchers to discover a new crop.

Two-thirds of all the energy in coal goes up the chimney in smoke. The biggest fuel burners, such as the Pennsylvania railroad, spent big sums to find out a way to lessen the smoke and increase the heat in a boiler.

"Can you take that battery?" asked the general.

"I think I can," replied the colonel.

"Go take it," said the commander, "and don't come back until you do."

"Here's $10,000," says the corporation president to his chief of research workers, "find out how we can save a fraction of a cent on each ton of output."

And the fellow who can find out has won a great industrial battle and captured a battery from his more sluggish competitor.

One winter day in his banking office I saw Winthrop Smith hand a silver dollar to his old friend, the magician, Kellar.

"Here, do a trick," said the banker.

"Hands are too cold," replied the sleight of hand artist, but taking the coin he flipped it into the air and instantly it seemed as if it were raining silver dollars in Kellar's silk hat.

That's how some of the wizards in trade operate. By an apparent stroke of genius they multiply one dollar of profit into nearly a dozen.

"Luck," you say.

Not that at all. It wasn't luck which enabled the magician to manipulate the coins, but years of patient practice and study.

The follow who thinks he can win in business today without once following the injunction "find out," had better telephone for the sheriff to nail up his door.

Color Blindness.

Color blindness proves to be less simple than has been supposed, the defect being one of coloring instead of vision in some cases. As reported by Dr. H. E. Howe of the American Chemical society, eyes quite perfect in ordinary color perception have become weak or fatigued for red and then have responded to the green rays combined with the red from certain red glass. A veteran engine driver properly identified red light near at hand, while at considerable distance the signal appeared green. The disc of the lamp was found to be copper ruby glass and this and some other kinds of red glass permit rays toward the blue end of the spectrum to pass in mixture with the red. The use of selenium ruby glass is advised, its transmission of only red rays insuring that the normal eye will see no green.

Peculiar Patches in Sky.

Not less than 182 more or less clearly defined dark patches in the sky are recognized by Prof. E. E. Barnard in his latest catalogue. In some cases they are fairly round and regular, in others they are of complicated and contorted form and their appearance and sharpness suggest that they are dark clouds or nebulae cutting off a background made faintly luminous by unseen stars or diffused nebulous matter. Most, though not all, of the dark patches are in the region of the Milky Way, where so much of the material visible in the heavens is concentrated.

Belt Had Tightened.

Two soldiers from Fort McKinley, Maine, attended a bounteous repast on Thanksgiving day, and after partaking of the most varied assortment of dishes, the hostess inquired if they would have anything else. One soldier gazed longingly at the fruit, candy and ice cream as yet untouched, and remarked: "A little more room, please."—Everybody's Magazine.

BRIDEGROOM IN KHAKI NOW.

And June Marriage Licenses Are Breaking All Records in Chicago.

Chicago, June7.—The conventional black is passe, oh, very passe!

Khaki is the color these days that the bridegroom is standing up in, and according to the clerks at the county marriage license bureau, there are a good many standing up:

For with the war over and old loves back and new loves won, June marriages licenses are breaking all records in Chicago. In the four business days of this month 864 prospective husbands have stepped up to the marriage license windows in the county building and asked for permission to be married. This is an increase of seventy-five over June, 1914, the previous last normal year, when 789 licenses were issued.

More than 20 per cent of the men are in uniform. As many more are discharged soldiers who value the new certificate for marringe even more than they did the certificate of release from the army. The men register their ages approximately from 22 to 32. The girls, as usual, are a trifle younger.

AND SO IS JUSTICE SERVED!

Judge Refused a Plea of Guilty and Then Jury Freed Prisoner.

St. Louis, June 7.—When Fred Hogan, also known as Bamboro, who gave his address as Chicago, scanned the faces of the jurors who were selected in Circuit Judge Taylor's court today to try him on a charge of feloniously carrying burglar tools, he asked Assistant Circuit Attorney Lacy to permit him to plead guilty and take two years in the penitentiary. The request was denied.

An hour later, after Hogan on the witness stand had explained that he was carrying several keys and a flashlight because he worked in a hotel and that he did not know there was a steel saw concealed in his belt until policemen found it there, after his arrest, the jury returned a verdict of "not guilty."

Last week Hogan offered to plead guilty provided Judge Taylor would sentence him to a year in the workhouse This the judge refused to do.

"If you are guilty of this charge you should be sent to the penitentiary," said the judge and Hogan was ordered to stand trial.

Miss Jennie Evans and Evan Evans left Thursday night for Strawberry Point, Ia., to visit relatives and friends for two weeks.

Mrs. M. A. Ummethun, who has been visiting her daughter, Mrs. E. G. Orear left yesterday for her home in Kansas City.

WOOL! WOOL!!

I will buy your wool and pay the highest market price. My record in handling last years clip under government rulings is sufficient guarantee I can give best results. Plenty of sacks and twine on hands.

The Oakland

Sensible Six

Mechanical Construction

THE ENGINE—The Oakland Engine is of the high-speed, overhead valve, six-cylinder type. It develops 44-horse-power at 2600 revolutions per minute. The bore is 2 13-16 inch, the stroke 4¾ inches, with piston displacement of 177 cubic inches—cylinders are cast in one piece.

Aluminum Pistons add to the efficiency of the Oakland engine by lessening the bearing loads and making operation smooth when running at high speed.

Force feed lubrication insures most perfect oiling with the use of the least oil.

All engine parts are easy to reach. The construction of the intake and exhaust manifold is such as to get the maximum efficiency from every particle of gasoline.

The electric system is most reliable, thermostat control taking care of the current in cold or hot weather to eliminate the necessity of changing storage batteries.

The smoothness of this engine insures its long life and perfect performance under all conditions.

THE CHASSIS—Simplicity and strength are the principal points of the chassis of the Oakland Sensible Six. Springs are mounted under the frame and directly to it instead of using brackets. A gear driven tire pump may be used connected within the crank case.

Superior action is obtained by the employment of the Hotchkiss drive. Shocks are reduced by the long semi-elliptic rear springs. Rear axle is of the one-bearing, full floating type(hub and differential fitted with special Hyatt vanadium steel roller bearings. The drive shafts are 1½ inch nickel steel, double heat treated. The axle casing is strongly reinforced with truss rods.

The brake system is simple and positive and brakes are faced with wire woven asbestos.

Front axle is extra strong and springs are fastened at lowest point, giving a low center of gravity with 10 inches road clearance. Jacox irreversible steering gear is used.

Tires are 32x4. This is a large tire equipment for the weight of car and insures very high tire mileage.

On this extra good mechanical foundation are built the handsome bodies of the Oakland Sensible Six.

TOURING CAR $1075.

NODAWAY HOGS TO ARGENTINA

SOUTH AMERICAN COUNTRY UPBUILDING FARMS

OPPORTUNITY IS OFFERED

Chance for Young Man to Make Trip to That Country in Charge of Hog Consignment.

The Argentine government, now engaged in the upbuilding of the farm lands of that country and the restocking of the large ranches with American stock, has shown its estimation for the products of Nodaway county. In a recent letter to F. L. Garrett, secretary of the local Poland-China Hog Breeders Association, a request is made that he purchase a number of the finest specimen in this county for shipment to Buenos Aires.

The South American country is undergoing a great change at the present time and the government is taking control of the matter of raising the standard of the farms. Every hog which is to be sent from this county must pass a rigid inspection by veterinary officials before shipment from New York, and the Argentine government also requires that every animal must bear a tatoo mark for identification.

The letter received by Mr. Garrett was signed by D. W. Pruce, one of the agricultural experts working in connection with the Argentine government. In the letter he explains that the idea of the government is to get the best kind of stock possible started on the new farms, and it is certainly a great compliment to Mr. Garrett and to Nodaway county in general to receive the order.

Although the selection of the hogs will be made personally by Mr. Garrett, a man must be secured to take charge of the shipment from New York to Buenos Aires, and he is to be paid a salary of $100 per month during the trip. The man is given an option of returning at once to the United States after the hogs have been delivered or staying in Argentina at the same salary and returning in two years.

Mr. Garrett will make the selection of the man who is to have charge of the hogs on the long trip to South America, and he desires all wen who wish to make application for the position, get in touch with him at the office of the Poland-China Associatioon in this city.

Nebraska Visitors.

Mrs. E. T. Rasmussen of Riverton, Neb., who atatended the commencement exercises of Lindenwood College St. Charles, Mo., and visited friends in St. Louis, returned to Maryville yesterday noon. Mr. Rasmussen came a few days ago from Omaha, where he had been attending a Masonic meeting, and he and Mrs. Rasmussen will spend several weeks with her parents, Mr. and Mrs. H. T. Crane.

GARDNER PROCLAIMS A "SCOUT" WEEK JUNH 6-14

...hout the State to Secure ... Members for the Organization.

Jefferson City, June 7.—Governor Gardner has issued the following proclamation designating the week of June 8 to 14 as "Boy Scout Week" and calls upon the people of Missouri to become associate members of the organization:

"The Youthful American Army of Boy Scouts deserve no small degree of credit for the substantial service they rendered the nation in the great war. Their response to the call for workers in the Liberty Loan and War Savings campaign was quick and effective. They proved themselves experts in locating walnut trees for gun stocks. The Red Cross could always count upon their whole-hearted cooperation.

"The value of the Scout idea consists in conserving the boy power of the nation by training for citizenship, educating through recreation and developing character by the application of the Scout law, 'a daily good turn, without reward.'

"I commend most heartily the nation wide plans for arousing interest and enlisting more substantial and effective support of the Boy Scout Organization. Therefore, I, Frederick Gardner, governor of the State of Missouri, very earnestly recommend that the period from Sunday, June 8, to June 14, be observed throughout the commonwealth as Boy Scout Week.

"In behalf of the Boy Scouts I appeal to the men and women of Missouri to register their support of this magnificent, essentially American organization by becoming associate members that adequate provision may be made for enlarging the usefulness and effectiveness of the movement for training the boys of America in American ideals and citizenship."

BUSINESS WOMEN TO MEET.

St. Louis, June 7.—More than 350 women, reprensenting every state in the country, are expected to attend the first annual convention of the National Business and Professional Women of America which will be held in connection with the third annual convention of the Woman's Association of Commerce, U. S. A., which will be hehld in this city, July 14 to 18, inclusive. Headquarters will be at Hotel Statler. These women represent every line of business and profession.

Problems of reconstruction, including problems of the business woman with her employer, education of the business woman to the necessity of the increased quality of service and to a proper sense of their responsibility to their job, will be discussed at the session.

Lodges Celebrate in Graham.

The I. O. O. F., Rebekah and Modern Woodmen lodges will hold an all day session tomorrow in Graham at Welling's park. At noon a dinner will be served and a program of speeches and music will be given during the afternoon. George Pat Wright will be one of the speakers.

STATE FAIR SCHOOL EXAMS

TEN LADS FROM THROUGHOUT COUNTY IN COMPETITION

FUNDAMENTAL STBJECTS

Lad From Each County in State to Attend School—Free Instruction and Entertainment Offered.

A competitive examination for the selection of a representative of Nodaway county to be held at the boys school of the State Fair Sedalia Aug. 9-14 was in progress this afternoon at the office of County Superintendent of Schools Bert Cooper.

The questions asked are in the three subjects—Agriculture, Geography and Arithmetic, considered by educators as the fundamental subjects of the rural schools. The examination questions are formulated by the officers in charge of the State Fair School, and are along the lines of practical every day problems.

The examination papers will be graded by County Superintendent Cooper, and the lad making the highest grade in the tests will be selected to attend the school.

The boy making the next highest grade will be the alternate and will attend the Fair in the event that the winner is unable to go.

The State Fair School course extends one week, and is of great educational advantages to the lads who are lucky enough to be chosen. One boy from each county is represented in the school and is furnished a short course in practical agriculture. In addition to this he is given free access to all the concessions and amusements on the grounds.

Following are the Nodaway county lads who took the examination this afternoon:

Roland Holloway, Maryville; Earl Gorton, Pickering; Ralph Dowden, Maryville; Russell Clayton, Pickering; Merrill King, Pickering; Leland Medsker, Guilford; James E. Reddick, Sheridan; Walden H. Lemaster, Barnard; Harry E. Wood, Barnard; and Maurice V. Olmstead, Hopkins.

FEDERALS TO MEET FAST MAITLAND NINE TOMORROW

Game to Be Staged on Fair Grounds Diamond at 3:30—St. Joseph Game Pending.

The Maryville Federals will cross bats with the fast Maitland nine on the Fair Grounds diamond tomorrow afternoon in what promises to be one of the classiest contests so far this year.

The Maitland team is composed of ball players of who know the game from A to Z, and many of the athletes are former league stars.

Maitland took the Burlington Junction Boosters to a 4 to 5 trimming last Sunday at the latter's diamond in one of the best exhibitions which have been staged in that locality in several years. The game went for thirteen innings and the crowd was kept on its toes throughout the contest by the air tight playing of both teams.

Manager Black of the local club is dickering with the St. Joseph stockyards team for a game to beplayed here in the near future. It was planned by the St. Joe aggregation to invade the Maryville camp on Sunday, June 15, and the word was passed at that place that a special train would bring a big crowd of rooters on the northern invasion.

The government ownership of the railroads, however, put a hitch in the plans, and both teams are "standing by" until some definite arrangements can be made.

Fay E. Carmichael Lands.

Mr. and Mrs. J. S. Carmichael of Burlington Junction have received word that their son, Pvt. Fay E. Carmichael, had landed in Newport News, Va., May 30. He had been located in France since last August and was in the trenches for fourteen days. Pvt. Carmichael received his training at Camp Dodge, Ia., and has been in military service since May 24, 1918. He was a member of Co. M, 351st infantry, 88th division.

Mr. Gooden is the type of man who should be an inspiration to the younger generation. Keen, alert and wide awake, he would put to shame many a man 20 yeas his junior in physical activity and strength.

GETTING READY FOR THE DECENNIAL CENSUS

Force of 85,000 Employees Will Be Needed for Work—Must Be Done in a Few Weeks.

Washington, D. C.—Uncle Sam is rapidly getting ready to "take stock." To put it more clearly, preparations are well along for the fourteenth decennial census, to be taken in 1920.

The last Congress granted an appropriation for the work, and a force of several hundred clerks is busy in the Census Bureau making the necessary preparations for the huge task, which must be accomplished in a few weeks.

For this immense job, the bureau's regular force of about four hundred employees will be expanded to 85,000 or more. The appropriation which Congress has made for the work is $20,500,000. This amount covers also the ordinary expenses of the bureau during 1919.

The census will include not only enumeration of the population of the United States, continental and insular, but also a canvass of the agricultural, manufacturing, mining and quarry, oil and gas and other interests for all the states as well as for the District of Columbia, Alaska, Hawaii, Porto Rico, Guam, Samoa and the Canal Zone.

For the purposes of the enumeration, the country has been divided into 378 supervisory districts, with a supervisor for each, to whom about 85,000 enumerators will report.

Date Is Advanced.

The actual enumeration will be completed in a few weeks, although it will be several months before results will begin to be known. Nevertheless, the figures will be available much earlier for the 1920 census than was the case in 1910, because this time the census will be as of January 1, instead of April 15, as in 1910. The change was made because it is believed the agricultural census will be more reliable on the earlier date.

Chief interest in the census, of course, will be in the population, but a great many interests require much more detailed information, such as the ratio of males and females, distribution, degree of illiteracy, proportion of whites and blacks, proportion of foreign born to native population and many other facts that can be learned only through Uncle Sam's decennial "stock taking." The 1920 census is certain to bring out many changes, for the past decade has been one of wonderful growth and development.

Next to population, the greatest interest will be in the census of agriculture. This will show the number and acreage of farms in the country and in each state and county; the number of acres of improved land; value of farms and the stocks of machinery; number and kind of live stock, and practically every detail of information relating to agriculture.

The census of manufacturers is taken every five years, unlike the other inquiries. This will be of unusual interest this time because the last census was taken in 1914, when the world was at peace. Since then the greatest war in history has been fought and America has accomplished an industrial expansion that is unparalleled. This census, therefore, covering the calendar year 1919, will present a statistical portrayal of the transition of American industries from peace to war and from war back to a peace basis.

Polk Township Association.

There will be a meeting of the Polk Township Sunday School Association Sunday afternoon, June 8, at 3 o'clock at the South Methodist Church. Every officer is urged to be present, also every superintendent in the township, and all other Sunday School workers who have the success of this work at heart. R. C. SEAL, President.

Mrs. Guy Bowers and daughters, Donna and Jeanne of Carthage, are visiting Mrs. Bowers' mother, Mrs. Anna Neuens. Mr. Bowers, formerly operator at the Burlington station here is now superintendent of a shoe factory in Carthage.

ATTENTION ODD FELLOWS AND REBEKAHS

There will be a memorial exericse, with a Memorial address by Dr. G. S. Cox Tuesday night, June 10, in the Odd Fellows Hall. All Odd Fellows and Rebekahs are requested to be present. Bring your friends.

ALLIES' REPLY IS COMPLETED

TO BE SUBMITED TO "BIG FOUR" MONDAY FOR FINAL DECISION

MATERIAL CONCESSIONS

To Hold First Meeting of League of Nations in Washington Next October.

Paris, June 7.—The Council of Four today completed the Allies' reply to German counter proposals. The reply will be submitted to the Big Four Monday for their final decision. In their reply to Germany it is now certain that the Allies will promise her representation on the commission of experts who are to determine reparations. The Allies have also decided to grant Germany material concessions in upper Silesia. These are the maximum concessions granted as a result of the German counter proposals. Lloyd George, however, is strongly advocating that the Germans be told that the the first meeting of the League of Nations the question of admiting them to membership will be taken up, this meeting to be held in Washington next October. Commissioners characterize changes that have been made as making the treaty workable and at the same time not affecting the principles of the original draft. It is confidently expected that the changes will result in the Germans signing the treaty.

ESTHONIANS NEAR PETROGRAD

Communication Cut Off Between Copenhagen and Berlin—Riots in German Capital.

London, June 7.—Communication has been cut between Copenhagen and Berlin, according to a Copenhagen dispatch to the Exchange Telegraph company this morning. The dispatch stated that it was believed in Copenhagen that riots were taking place in the German capital.

London, June 7.—A central news Copenhagen dispatch says the Esthonians have reached Ratchins, thirty-five miles southwest of Petrograd.

PROPOSE $50,000 ROAD BOND AT INDEPENDENCE

Committee Appears Before Special Session of County Court Thhis Afternoon—Expect Favorable Action.

George A .Hepburn, S. H. McCorkle, J. T. Logan and J. A. Porch, members of the township board of Independence township appeared before a special session of the County Court this afternoon to present a petition calling for a proposed $50,000 road bond issue at that place.

The Court is expected to take favorable action on the petition and will probably make the selection of the time of the election and other details late today.

Cancel Rural Carrier Exam.

Democrat-Forum.

Dear Sir:

I am in receipt of a communication from the United States Civil Service Commissioner under date of June 4th, 1919. Advising me that Rural Carrier Examination scheduled for this office June 14th, 1919, has been canceled.

Respectfully,
ELDON W. IRVIN,
Local Secretary.

OFFICERS DENY ARREST REPORT.

Salina, Kan., June 7.—Rumors circulated that Cashier Lefferdink of the defunct Kansas State Bank had been arrested in Lincoln, proved unfounded when Lincoln officials denied the report.

Cooper Gooden's 79th Birthday.

Cooper Gooden, recently appointed as dog tax enumerator and collector, will celebrate his seventy-ninth birthday tomorrow and just to show that he is still a "young" man, he has promised to dance a jig.

Trapp Funeral Tomorrow.

Funeral services for John L. Trapp, who died Thursday evening at his home in Skidmore, will be held at 2 o'clock tomorrow afternoon at the Christian church, conducted by the pastor, Burial will be in the Maryville cemetery.

GERMAN LEADERS BEHIND RECENT BOMB OUTRAGES

Evidence Brought Out at Trial of Anarchists Show Huns Responsible for Many Plots.

Geneva, June 7.—Evidence introduced at the trial of a band of anarchists taken into custody here proves that German military and political leaders have been behind the plots costing thousands of innocent lives. It was revealed that they are indirectly responsible for the bomb outrage in the United States.

"LITTLE DEER" ATTRACTS THE ATTENTION OF MANY

Animal Captured by John Meek Several Days Ago—Becoming Very Tame.

When the word was spread this morning that a "little deer" had arrived in town, there was much fluttering of masculine hearts, and many were the visions of a dainty, sparkling gem of femininity.

But such was not the case. The "deer" was of the four-footed, smooth coated species and is the property of John Meek, who lives about five miles southwest of this city.

The little animal was captured several days ago, and Meek has been feeding it on milk. It has become very tame and follows him about like a dog.

NEW ORDER DESIGNED "TO KEEP NAVY FIT."

Washington, D. C.—Affecting every officer on the active list, the Navy Department has issued an order requiring regular and periodical physical exercise and outlining a systematic plan of weekly physical tests. The plan is intended to keep the older officers in physical condition for any emergency and to carefully develop the younger officers.

Several years ago President Roosevelt issued a celebrated order requiring every officer to complete once a year one of the following strenuous physical tests: Walk fifty miles during three consecutive days, in not more than 20 hours; ride horseback a distance of 90 miles during three consecutive days, or ride a bicycle a distance of 100 miles in not more than fifteen hours in three consecutive days. This order applied to both army and navy officers.

The new army order is in accordance with the modern idea that an occasional strenuous test is of far less value than regular exercises taken at regular periods, and is intended to "keep the Navy fit."

BEGIN REORGANIZING THE MISSOURI NATIONAL GUARD.

St. Louis, June 7.—At a meeting of fifty officers of the 138th Infantry held at the 1st Regiment Armory here, two committees were appointed to take up the active work of reorganization of the 1st and 5th Regiments, Missouri National Guard.

Those appointed on the committees to organize the old 1st Regiment are Major Norman B. Comfort, Major Joseph J. Koch and Lieut. Col. J. E. Lowe The committee to reorganize the 5th Regiment includes Col. L. K. Robbins, Major James L. Barngrove and Lieut. Col. E. G McMahon, who is still on duty in France.

It was decided that the reorganization units meet on certain days each week.

A daughter was born Sunday, June 1, to Mr. and Mrs. John Meek, living southwest of Maryville. She has been named Marilyn.

GENERAL STRIKE ON IN BERLIN

100,000 REPORTED TO BE OUT IN PROTEST STRIKE

LEVINE EXECUTION CAUSE

Unrest Reported Throughout Entire Germany—Late Reports Say "No Bloodshed Yet."

London, June 7.—Berlin is in the throes of a general strike. A dispatch reaching London today said one hundred thousand had gone on a strike there as a protest against the execution of the Bolshevik leader, Levine. In a Munich dispatch it was stated that the strike started Friday and that the workers did not wait for the sanction of the leaders but walked out when the news of Levine's execution was circlated. A dispatch at noon stated: "no bloodshed reported yet." Unrest is reported all over Germany as the result of Levine's execution.

PERSHING WANTS TO FLY ACROSS ATLANTIC

General Is Willing to Do Any Work Necessary on Trip in British Dirigible.

London, June 7.—General Pershing has requested that he be permitted to cross the Atlantic in the RP-34, the British dirigible when it attempts its flight across, according to a dispatch issued by the Exchange Telegraph Company. It was stated that the request will likely be granted. Pershing is reported to have said that he would do any work on the voyage that would be necessary.

Washington, June 7.—War department officials today scouted the report that Pershing had asked permission to be a passenger on the British dirigible to attempt a trans-Atlantic flight.

OKLAHOMA WHEAT CROP DAMAGED BY HAIL STORM

Strikes in Grady County Cutting Wide Swath Eastward to McClain—Worst in Many Years.

Chickasha, Okla., June 7.—The worst hail storm in years struck the northern part of Grady county last night, leveling crops and affecting a strip a mile and a half to three miles wide from west of Pocasset eastward to McClain County line. Wheat ready to cut next week was practically destroyed.

TO REDUCE STANDING ARMY

Recommended by the House Militaary Affairs Committee—400,000 Enlisted Men, 22,000 Officers.

Washington, June 7.—Material reduction in the cost and size of the standing army proposed by Secretary of War Baker, was recommended today by the House Military Affairs Committee. The total appropriation will provide for four hundred thousand enlisted men and twenty-two thousand officers.

WEATHER FOR TODAY

Unsettled weather tonight and Sunday, probably local showers; not much change in temperature.

MEMBER MISSOURI PRESS ASSOCIATION

TO COMPLETE ORGANIZATION OF AMERICAN LEGION POSTS

Adj. Gen. Henry C. Clark Given Authority to Extend Work—Expect 100,000 Members in Missouri.

Jefferson City, June 5.—Adjutant-General Henry C. Clark, state chairman of the newly organized American Legion has received authority to complete the organization of local posts in every county, town and city in the state. One or more local posts, composed of honorably discharged soldiers, sailors and marines who served either in this country or abroad may be organized in any town, county or city. Posts will be named for a deceased soldier, sailor or marine, as desired, provided there be not less than fifteen charter members. The legion is strictly non-political and the discussion of political questions or candidates is not permitted at its meetings. Its objects are purely fraternal and to perpetuate the memories and keep alive the comradeship of those who served in the military forces in any capacity during the war with Germany. All distinction of rank are abolished at its meetings.

Adjutant-General Clark says the membership of the legion in Missouri will be 100,000 by the time the November convention is held.

Corsets for the Fat Men.

London, June 6.—Men with a paunch should wear corsets. That was the advice Dr. Leonard Williams gave the Peace Nursery and Mid-wifery Conference. His reason is based upon health principles.

"Aboriginal man," said Dr. Williams, "certainly was a four-footed animal. The abdominal construction was intended for that posture. Since human beings began to walk on their hind legs the position of abdominal organs had been thrown out of gear.

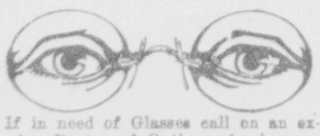
"People who take plenty of out-door exercise and athletes might get on very well without corsets, but persons who live a sedentary life require some kind of support as given by corsets."

Dr. Williams said people who wore tight collars prevented proper draining of their brains and thereby suffered bad tempers.

"Since women gave up wearing tight collars they have become sweeter tempered," he said.

Sixth Free Hotel Opened.

Fifty canvas buildings which served last summer as hospital wards for American soldiers at Chateau Thierry have been obtained by the American Red Cross and transplanted to the site of the Paris Exposition, where they are now being used to shelter and feed 1,600 American soldiers on leave in Paris. This is the sixth free hotel which the Red Cross has established in Paris for the care of the American boys who visit the city on sightseeing trips.



If in need of Glasses call on an exclusive Doctor of Optics, who is competent. JOHN LE GRAND BAKER is Maryville's exclusive efficient Doctor of Optics. 2 blocks west of Postoffice.

NEWS FROM
NODAWAY COUNTY TOWNS

Parnell Sentinel.

Dr. John Nigh, who was a captain in Motor Truck Transportation No. 701, arrived in Parnell late Saturday night. Dr. Nigh was among the first to sail for France and for many months was located at Nazaire, France, in Base Hospital No. 1, but was later transferred to the Motor Truck department. He says he was mighty glad to get back to the good old U. S. A. He is a son of Mr. and Mrs. L. A. Nigh.

Frank Auer of Clyde, who has been substitute rural route carrier on route one out of Maryville, for nearly three months, has commenced his duties on route 2 out of Parnell. This is the route that E. E. Yetter has held down for over eighteen years, but who commenced carrying the mail on route 1 Monday morning.

William H. Young, living four miles north of Sheridan, and Mrs. Flora King of Parnell were married at the home of the bride Monday evening about 5 o'clock by Justice of the Peace L. C. Gooden. Mrs. King has been a resident of Parnell for the last thirty years and is the mother of Charley Teeters who lately returned from overseas with the A. E. F. Mr. Young has been a resident of Sheridan ever since the town was laid out. He is a farmer.

Conception Courier.

The contract for the erection of the addition to the school house was let Wednesday evening to R. L. Ficklin of St. Joseph. Work will be commenced at once.

John H. Nolen, was in the city yesterday and during an interview with him we were informed that the work of organizing a Drainage District, beginning north of Ravenwood and running thence south to Whitesville, along the Platte river, is progressing nicely and is now practically assured. This appears to be a good proposition, and the farmers owning land along the Platte in this section will, no doubt, help push this matter along.

Born to Mr. and Mrs. Chas. A. Teson of Clyde, June 4, 1919, a boy.

Guilford Times.

Carl Wray and wife left Wednesday to spend about ten days in Excelsior Springs to take a rest. Carl is entitled to a rest as he is a busy man, working early and late, often to accomodate some of his friends. Carl is about fifty years old and is a great booster for Guilford and vicinity. Though in the prime of life one can overwork himself until a rest can overwork himself until until rest is absolutely necessary.Such however is not the case with Carl but he feels like a short rest from the routine of the banking business will be appreciated.

John McKee received a telegram Monday morning from his son, Frank, who had just landed from his return trip overseas. He is located at present at Camp Upton, New York.

J. G. Skidmore last week sold his interest in the 320 acres of land, 3 miles east of Cawood to his brother, Lawrence, who was a partner with him.

Martin Pederson sold his 104 acre farm the other day to Volley Kilmel for $167½ per acre. Martin will likely locate in town somewhere.

Clearmont News.

During the thunder storm of Sunday morning the garage on the Wm. Pence farm, on which Valdo Lawrence lives, was destroyed by fire, together with one auto and all the other contents. Mr. Lawrence discovered the fire between 3 and 4 o'clock and at once notified the neighbors by phone, but the entire building was on fire when first discovered and it was impossible to save anything. The car was insured for $1,000 but there was no insurance on the building. It is thought the building was struck by lightning.

The Town Board at its regular meeting passed an ordinance fixing the poll tax for 1919 at $4.00 if paid in money; if paid in work, two days for a man or one day for man and team. J. H. Andrews was appointed as street commissioner, and it was decided to commence work as soon as possible.

The Hopkins Journal was bragging about their blue grass over there, in last week's issue, reporting some 50 inches long. That's nothing, Brother Morehad. Bert Pfeiffer brought in a bunch from the T. J. Wallace farm that measures 66 inches, which is now hanging up in the Jackson Bank. Then Guy Clary found a bunch on his farm just west of town that measured 69 inches in length. If any one can beat it, bring it in.

At the Dr. Dowell public sale last Saturday afternoon, Perry Farrens bid in the Doctor's fine residence property for $3100. Perry informs us that he will probably move to the property in a short time and make it his home and quit active farming.

Jake Burch is the champion hog raiser in this section, if not in the county. He informs us yesterday that he has right around a thousand spring pigs. Who can beat it?

Burlington Junction Post.

William Belding and Betty Lundeen of this city were united in marriage at Clarinda Wednesday afternoon. They will make their home on the Lundeen farm west of town.

Another step toward the erection of a modern hotel was taken this week after a lull because of being too busy along other lines. Most of the amount necessary has been subscribed and Ed Caldwell says there will be no trouble in raising the balance. Applications for leasing the building are coming in One received the other day offered ten per cent on the lease.

R. D. Corken has moved into the Tobin house, formerly occupied by Dr. L. E. Wallace, who recently moved into the Hannah Miller home. The Corkens will "camp out" until R. D. decides upon where he will locate. L. G. Yaple and family moved into the R. D. Corken home Monday and Judge Jesse Robertson is expected to set up housekeeping in the family residence here formerly occupied by the Yaples.

Hopkins Journal.

Mr. Novinger owner of the building occupied by the Novinger restaurant on Third street, has sold same to John D. Stevens, owner of the Owl Pharmacy he consideration being $4,000. The restaurant stock has been sold to Tom Roberts who will consolidate it with his restaurant on Barnard street, leaving but one restaurant for Hopkins which is all that is needed. Mr. Stevens will move his drug stock to the new location the first of July and will make his store one of the most attractive in this part of the state.

We learn that Dr. Maxwell of Hopkins may now be known as Captain Maxwell, having received his promotion about May 10. The Captain is still receiving surgeon at Hospital No. 113 and we are glad he has made such a good soldier that he may now wear the two silver bars on his shoulder. He is looking forward to his return home in July or early August.

Mrs. Omer Edmonds of Kansas City, has been a guest the past week of relatives and friends in this city. "Deac" came as far as Pickering with her where they visited in the home of his sister, Mrs. Ed. Herbert, but could not spare the time to come on to this city. He still travels for Marshal Field & Co.

Charley McMaster of Twin Falls, Idaho, visited in Hopkins and vicinity over Sunday. He had been in the western part of Missouri buying pure bred Shorthorn cattle shipping two car loads west last week, and high priced ones, too, the highest priced cow in the shipment costing him $1,125. He will sell the cattle in a big sale to be held in Twin Falls soon.

Skidmore News.

Along about 2:30 o'clock last Sunday morning, lightning struck and set fire to a barn on the Clay Wall farm, south west of Skidmore and when discovered the fire had gained sufficient headway to make saving the structure, which was old and dry, out of the question. Together with the building, about three dozen hens, five sets of harness, ninety bushels of corn, three tons of baled alfalfa hay and some sheaf oats were consumed. There was no insurance on the building and only a small amount, $150, was carried on the contents.

Miss Carrie Torrey came from Omaha the latter part of last week and remained until Sunday evening with home folks. She was accompanied back to Omaha by her mother for a few days visit. From Omaha Mrs. Torrey will go to Chicago where she expects to spend about six weeks visiting another daughter, Mrs. Arthur Cramp.

Rev. and Mrs. Reuben Barrett expect to leave the first of next week for a several weeks visit with relatives and friends in Pennsylvania and New York. They are called there at this time by the illness of Mrs. Barrett's sister.

Twenty-one spring fries weighing 47 pounds were sold to a local produce dealer by M. A. Sewell, Tuesday, June 3, for 42 cents per pound or a total of $19.74. 94 cents each for a 2-pound cihcken. With rifles at this price, the poor printer's family can only look on with longing eye and an empty stomach while those who are blessed with opulence regale themselves upon this high-toned yellow legged delicacy.

Barnard Bulletin.

George W. Cole closed a deal Monday whereby he bought the west 40 acres of the Lewis Snapp farm west of town.

Ollie Breit was taken seriously ill Saturday night and was hurried to the hospital in St. Joseph Monday when he was operated on for appendicitis. Latest report Wednesday was that he was in a critical condition but was doing as well as could be expected.

George Daniels, manager of the Mutual Telephone Co. of Barnard, went to St. Joseph Wednesday night to consult with the manager of the Bell Telephone Company, in an effort to secure direct service with St. Joseph over the long distance lines. As it is now, one calling St. Joseph must call Maryville which causes considerable delay.

Elmo Register.

Emma Norris bought one 40 of the James estate, and L. W. James the balance of the farm. Elmas and Frank taking theirs in money.

A surprise was given the family of Zach Johnston at the W. M. Johnston home on Wednesday evening, June 4, by their many friends, celebrating their return to Elmo. The crowd present taxed the capacity of the Johnston home, and all report a merry time.

The Elmo school board met last Thursday and definitely decided to add the twelfth grade to our high school, and extended the term to nine months. This will place us on the list of approved high schools, and give our children an equal chance with others who have approved schools. The vote of the board was unanimous on both points.

Depend on our Want Ad. Column.

ANTI-SUB FLOTILLA TO MAKE VISIT TO ST. LOUIS.

St. Louis, June 7.—Elaborate plans are now being planned for the reception of the United States anti-submarine flotilla which will arrive here the first of next week. The flotilla is now at Memphis, Tenn., and is due to make but one stop, except at night time, before reaching here. This stop is at Cairo, Ill.

The United States submarine chaser B. C. SC-3, forerunner of the flotilla, which arrived here unannounced Tuesday afternoon, has attracted much attention. Hundreds have visited it, examining its mechanism and conversing with the crew.

The flotilla is cruising the Mississippi and its larger tributaries in the interest of naval recruiting.

NEURALGIA or Headache—Rub the forehead and temples with VICK'S VAPORUB "YOUR BODYGUARD" - 30¢, 60¢, $1.20

SHAVING BRUSHES CARRY ANTHRAX GERM, 'TIS SAID.

Boston, June 7.—Health Commissioner Woodward has warned barbers, druggists and department stores in the state against the possibility of shaving brushes containing the germs of the deadly disease of anthrax.

Dr. Woodward states that the Federal health investigators have traced the source of the disease to the same material from which shaving brushes are made. He recommended that all brushes now on the market which do not bear the name or trade mark of the manufacturer should be returned or disinfected.

Obituary.

Conelia B. Faubion, youngest child of Mr. and Mrs. S. A. Faubion of Maysville, Mo., was born March 27, 1885, near Oak, DeKalb County, Mo., and died June 1, 1919, at Thermopolis, Wyo., after a week's illness. Interment was in Union chapel cemetery, near Helena, Mo., June 6.

Miss Faubion was a young lady of rare refinement and culture. Those who knew her well found in her the traits of noble womanhood that is always cherished in the best society. Conelia had made several visits to her sister's home, Mrs. E. W. Willough by and family of West Seventh street, and had made many friends here. Her last visit was here last September and upon leaving stated that it was her intention to see western America and it was while on this venture that her life was made short.

Her father and mother, two brothers Benjamin Faubion of Cosby, Mo., and William Faubion of Knoxville, Tenn., and one sister, Mrs. E. W. Willoughby including a number of near relatives survive her.

Mr. and Mrs. Sorenus E. Jenson of this city announce the birth of a son Wednesday, June 4.

"Camouflage,"
"Bolsheviki,"
"Barrage."

Turn the pages back a year or so and it's a safe bet that none of us could even pronounce these words let alone tell their meaning.

Today they are in most every school boy's vocabulary.

Such is the power of advertising. Whether it be the name of a man or the name of a breakfast food, advertising in one or more of its many forms makes it a household word.

Every time you advertise you are building your name into the minds of your customers and prospective customers just that much firmer.

You are making it just that much more difficult for your competitor. whether he is across the street from you or in the next town, to edge his way into your folks' minds. Advertising won't get you all the business there is in your community but it will get you a mighty big short of it.

Social. Clubs Churches

At a Dinner Party.

He had on a shoe too tight.
Entree wasn't seasoned right;
Not a drop of wine in sight!
Well he knew he was abused;
Wore the scowl of one, ill-used.
D—n! He wished he had refused.
Being human.

On that bleak and fateful day,
She had seen her life turn gray.
Now, was gayest of the gay.
Tho a sword was in her breast,
Laughed she, with unwonted zest.
Merry were her smile and jest,
Being woman.
—L. W. S., Denver Post.

For Maryville Visitors.

Mrs. M. B. Woolridge and her daughter, Mrs. Anna K. Wehrman, 106 S. Seventeenth street, entertained at a 6 o'clock dinner Thursday evening for Mrs. George Baker and daughter, Carrie Margaret of Maryville, Mo.—St. Joseph News-Press.

For Miss Bulmer.

Miss Wilda Keef gave a line party at the Empire theater last night for Miss Florence Bulmer of St. Joseph, who is her guest. Refreshments were served at the Candy Kitchen after the performance. Her guests were Misses Bulmer, Mildred Eckert, Clio Coler, Marie Price, Alice Peery, Mabel Cook, Cleona Kirch, Pauline McDermott and Mildred Shinabargar.

Bloomdale Auxiliary.

The Bloomdale auxiliary met in the Red Cross rooms at the home of Mrs. Parl Runnels. The following officers were elected: Mrs. Will Boatright, president; Mrs. Will Lett, vice president; Miss Margaret Shannon, secretary; Lerita Lett, corresponding secretary and treasurer. The remainder of the afternoon was spent in quilting. It was decided to have an all-day meeting at which time the Red Cross work would be completed and the auxiliay discontinued. The members present were Mrs. Robert Aley, Mrs. Abe Byerrum, Mrs. Will Boatwright, Mrs. Frank Maxon, Mrs. Edmond Harvey, Mrs. Bart Shannon, Mrs. Albert Hinton, Mrs. Parl Runnels, Mrs. Walter Runnels, Misses Mina and Lois Harvey, Alma Carter, Vivian Boatwright, Margaret Shannon, Ruth Maxon, Eldena and Lillian Runnels and Joseph Paul Aley.

Mrs. Robinson Hostess.

The June meeting of the Woman's Missionary Society of the Christian church was held yesterday afternoon aat the home of Mrs. J. B. Robinson, with Mrs. J. R. Brink as assisting hostess. Mrs. Brink was in charge of the program, which was opened with devotions led by Mrs. Fred Miller. The lesson subject for the meeting was "The Call of the Orient for Leaders." Mrs. Robert Lyle talked about "Christian Colleges for Women of Asia," and Mrs. J. J. Heifner had for her subject, "The Trained Oriental, the Most Acceptable Leader." Mrs. F. P. Robinson and Miss Helen Zenor of the State Teachers College gave special musical numbers, after which Mrs. Lyle reported her trip to Kansas City where she attended the commencement exercises of the nurse's training school in Christian hospital. Mrs. Lyle's daughter, Miss Vivian Lyle, left last week to enter the school. Committees were appointed for the coming year. The benediction by Mrs. A. M. Slatten closed the program and the remainder of the time was spent socially. Mrs. Barlow, a new member, was received into the society. There were about fifty present including the following visitors: Mrs. J. D. Richey, Mrs. G. B. Roseberry, Mrs. Ed Egley, Miss Mary Taylor, Miss Virginia Lawson, Mrs. F. P. Robinson, Miss Helen Zenor, Mrs. Lee Crossan, Mrs. J. S. Shinabargar, Mrs. Hosea Torrance, Mrs. Ed Hamlin, Miss Anna Weber of Winner, S. Dak., who is attending the State Teachers College, Mrs. Ira Richardson and Miss Bain.

Farewell Party.

A party was given last night at the home of Mina Gett in honor of Miss Edith Pfeiffer, who will soon leave for Eckley, Colo., to make her home. Games were enjoyed and refreshments were served. Those present were the honor guest, Viola Jones, Esther Pfeiffer, Esther Gilbert, Dale Skinner, Lavisa Swinford, Merybel Gett, Ruth Skinner, Katherine Wagner and Sterling Gett.

A Lesson in Addition.

A. P. Sandles of Ohio, the well known agricultural leader, submits a lesson in addition that merits the most careful consideration of every Missourian, as follows:

Twenty plus fifty is more than fifty plus twenty. This rule is true when life's work is added up.

"Today, a boy is twenty. A man is fifty.

"Today, we give to both a scientific knowledge of agriculture, and the secret of growing more crop per acre.

"Three score years and ten, they live and labor.

"At the end of life the boy's product, from soil and toil, will exceed and excel that of the man who waited until fifty to begin to farm the best he could.

"After the lesson was learned, the boy had fifty years to labor. The man had only twenty.

"Persuading the boys to start aright in life, is building better than we know. The good that's done reaches into years far ahead.

"There is gold in dirt. The riches of a commonwealth are multiplied by giving to the farmer boy a skillful hand and a cunning brain.

"He who plows and plants adds wealth to the nation. Twenty plus fifty is more than fifty plus twenty."

Card of Thanks.

We wish to thank our many friends for their kindness and sympathy shown us at the death of our beloved daughter and sister, Cornelia B. Faubion, and also for the beautiful floral offerings. The Faubion Family.

Hugh Honaker and Jim Ellsworth, Elmo soldiers, returned to their homes there yesterday. Mr. Ellsworth saw overseas service.

Do you know the power of Democrat Forum Want Ads?

FORCED TO FINE DOG HERO

But New York Justice Took Into Consideration Animal's Brave Deed in the Past.

Two medals bestowed for bravery hung from the collar of Jim, a Great Dane, when he appeared in the West side court the other day, charged with having been unmuzzled in public, says the New York World.

Patrolman Joseph B. Ward, attached to the health department, said he had seen Jim in a car without a muzzle. Jim would not let the policeman come near when an attempt to serve the summons was made, Ward testified.

Harry Gilpin, a druggist, told the magistrate about Jim's heroism. Mr. Gilpin and his daughter were asleep in their house one night in 1916, when a fire started. Jim was running up and down outside when the firemen arrived. He failed to make the firemen or the crowd understand what the trouble was. So he darted into the smoke and fire and dragged out first Mr. Gilpin and then Miss Gilpin, both overcome.

For this Jim received the hero's medal that year and Miss Gilpin gave him another. Recently the Alps club of Riverdale honored him.

"A dog that is as brave as you are deserves consideration," Magistrate Nolan said, "but you weren't muzzled and you resisted the officer. Fine $1."

Jim carried the bill in his mouth to the clerk of the court and took the receipt back to Mr. Gilpin.

Submarine Signals.

During the war, as is well known, submarine sound-signaling made great strides. In Schiffbau an account is given of a device employed in Germany. In this device the receiver is secured to the outer layer of the ship's hull from inside and is filled with water, the liquid being in contact with the outer plating of the vessel. The essential point in this device appears to be that the means for producing the sound are placed externally on the wall of the liquid tank, whereas in most cases the sounding device has hitherto been arranged inside the tank or receiver. Another special feature is an automatic arrangement for maintaining constant, or adjusting, the level of the water, which can be manipulated externally. —Scientific American.

Wrong Kind of Clothes.

Little tragedies occur to the men who have to chronicle the larger ones. On Thursday evening our "special correspondent" (arrayed in a silk hat and the best morning costume) arrived to find his mission meant the late train to Whitehaven and a plunge into a burning mine.

He telephoned at once for the proper clothes, but the message must have miscarried in the ear of the careful maid, who packed up a valise of dress clothes and shirts for the man who was to go down the mine.—London Chronicle.

Go to Church Tomorrow

The announcements of various Churches printed herewith are invitations to you to attend their services.

Baptist.

First Baptist, corner Market and Jenkins, W. C. Ferguson, pastor. Sunday school at 9:30 o'clock, I. E. Tebow, superintendent.

The morning services will be conducted by Dr. S. E. Davis of the State Teachers College. His subject will be "Chirstian Liberty." Dr. Davis is a public speaker of splendid ability. Nearly all of the faculty at the Teachers College are active in church work. It means much to our community and state in the splendid influence for religion that they exert. Dr. Davis is a splendid Bible student and forceful in his presentation of moral and religious subjects.

The pastor, with a gospel team, will present the June drive of Missouri Baptists at Clearmont in the morning and Elmo in the afternoon. Missouri Baptists are raising a large Endowment Fund for their aged ministers, a Church Building Loan Fund, and money for the B. Y. P. U. Assembly at Ironton.

Rev. W. C. Ferguson will occupy the pulpit at night services. The ordinance of baptism will be administered after the evening service.

The morning anthem will be "Sun of My Soul" At night the choir will render the anthem "Love, Rest and Home."

The Children's Day Program has been postponed until Sunday night, June 15.

Presbyterian.

First Presbyterian, Main and Jenkins. Dr. S. A. Coile, pastor. Sunday school at ten o'clock, H. P. Swinehart, superintendent. Morning church worship at 11 o'clock. Children's Day program. Evening worship at 8 o'clock Anthem, "The Valley of Peace," (Meredith). Sermon by pastor, subject "The Menace of Radicalism; its Antidote."

South Methodist.

Methodist Episcopal, South, Second and Buchanan streets, R. C. Holliday, pastor. Sunday school at 9:30 o'clock.

Morning worship at 11 o'clock. Brief communion address followed by sacrament of the Lord's supper. Epworth League at 7 o'clock. Evening service at 8 o'clock. Sermon subject, "The Reality of Sin."

Methodist.

First Methodist, Main and First streets Dr. Gilbert S. Cox, pastor. Sunday school at 9:30 o'clock. Preaching at 10.45 o'clock by the pastor. Sermon subject, "The Spirituality of Jesus." Anthem, "Tarry With Me," (Neidlinger). Duet, "Lead Kindly Light." by Miss Garrett and Mr. Mntz. Epworth League at 7 o'clock. Evening service at 8 o'clock. Second of series of sermons on Making Religion Safe, subject, "Mormonism, Eddyism and Adventism." Anthem, "Abide With Me" (Neidlinger). Solo, "Christ in Flanders," (Ward Stephens.)

Christian.

First Christian, Buchanan and Third R. E. Snodgrass, pastor. All the services of the church at the usual hours. Morning sermon subject, "Walking With God." Evening subject, "The Eleventh Commandment." A special program is arranged for the Senior Endeavor at 7 o'clock. Subject "Conditions Necessary for World Peace." The committee selected to put on the membership drive of the young men's class will meet at the church tomorrow afternoon at 3 p. m.

Scientist.

First Church of Christ, Scientist, 206 South Main street.—Sunday school at 9:30. Morning worship at 11 o'clock, subject of lesson sermon, "God, the Only Cause and Creator." There will be no Sunday night service. Reading room in church building open each Wednesday and Saturday afternoon to the public. Mid-week prayer service Wednesday night at 8 o'clock. Everyone welcome to all services and to the use of the reading room.

Catholic.

St. Patrick's, Buchanan and First. Rev. Father Henry F. Niemann, pastor. Low mass at 8 o'clock a. m. High mass at 10 o'clock.

St. Mary's, South Davis street, Rev. Father Odillo Scheiber, pastor. Low mass at 8 o'clock a. m. High mass with hymns at 10 o'clock.

Layers Need Animal Feed.

Chickens eat a large amount of animal matter in the form of insects, worms, and other low forms of animal life when allowed to range at will. If the poultry keeper is to get the best results from his fowls in winter he must furnish a substitute for this class of feed. For this purpose green cut bone, meat or fish scraps, and animal meal may be used. Green cut bone is usually fed by itself, while the scraps and meal may be readily mixed with the mash. Cut bone consists of green or fresh bone sliced or shaved into thin pieces by a bone cutter. Bones fresh from the butcher have more or less meat adhering, and the more of such meat the better, for the combination of bone and meat is excellent for producing eggs. Where a good supply of fresh bone can be obtained regularly it is very useful, but it can not be kept sweet for such long periods as the scraps and animal meal. Green cut bone should be fed carefully and in a sweet condition, otherwise bowel trouble may result. One pound a day is sufficient for 20 hens, but not over one-half pound should be fed to that number when first beginning to feed it. From one-half to three-fourths pound of animal meal or meat scraps may be fed to 12 or 15 hens. Any form of meat is likely to loosen the bowels of the hen when first fed, and the hens should be watched carefully and not fed too much. After the fowls have become accustomed to the animal meal or meat scraps it may be kept constantly before them.

Cook Funeral Today.

Funeral services for Marvin Cook who died Wednesday afternoon at the County Farm, were held at 2:30 o'clock this afternoon in Graham. Burial was in the Graham Cemetery.

ESSEX MOTOR CARS

Essex Popularity Grows

Note Their Increasing Number On the Streets and Ask Their Owners
Sells at $1395 f. o. b. Detroit

Hailed As A New Leader

All who have seen the Essex will understand how difficult it is to appear temperate in our claims for it.

People are saying the most enthusiastic things about it. They like its light weight and the way in which it combines the economy of the cheap car with the quality, endurance, comfort and performance of the large costly automobile. Motorists in every section are praising the Essex. Tens of thousands have ridden in it. A million have seen the Essex. All hail it a new leader.

"It Is THE Light Car"

That in a sentence expresses a view of practically everyone.

It describes their feelings as to its type, its value and its distinctive performance. Motorists have long talked of the car that would be enduring and comfortable to ride in that would be neither heavy nor costly to buy or operate.

They describe the Essex as being "the car" that fills that field.

And they have long wanted a light car that they would not have to apologize for because of its appearance. So their expression, "That is THE Light Car," describes their feelings concerning the Essex.

When Can I Get an Essex?

That is the question all are asking.

Thousands of course have already been shipped. They are going out from the factory in increasing numbers every day. But orders are also piling up and from the first we have had waiting lists.

It is not a question of selling the Essex during the next several months. The question will be "Who will get them?" If you are to be an Essex owner you must not delay ordering.

Everyone who knows the Essex is enthusiastic for it. All are talking about it. You can understand something of Essex popularity if you will listen to what motorists are saying. Ask any owner. If you haven't ridden in an Essex there is a pleasant experience in store for you.

IT JUST CAN'T BE DONE.

"Cave Lady" Wife Kicked Him, the Hubby Says, But Her Skirt—

Chicago, June 7.—It can't be done! Here's telling the court and the world, and proving it. If you could get one look at the lady in the case and the tube skirt you could see for yourself why not.

L. E. Bergeron testified before Judge John L. Sullivan in the superior court that his wife, Emma Bergeron, was extremely cruel to him. She kicked him and knocked him down in cave-lady style. And he only weighed thirty or forty pounds more than she at that.

Whereupon Attorney Thomas J. Holmes, representing Mrs. Bergeron, placed his client on the stand and favored the court with a view of the living original.

"It can't be done, if the court please" the witness testified, "not in these days and in this kind of a skirt. "See," and she illustrated her testimony by a vicious swing of her right foot that lifted it four inches off the floor and nine inches in front of her left foot—and no farther.

That kick might have jarred a mouse or a butterfly off balance, but a full grown man—never.

The court saw, and ruled accordingly. He dismissed the husband's bill for divorce despite a score of witnesses and Mrs. Bergeron's crossbill for divorce, which also charged cruelty.

And now you know why the women have quit kicking.

WAR NURSES TO RECEIVE $60 BONUS ON DISCHARGE

Nurses who have been discharged from the service of the United States will receive the $60 discharge bonus being given soldiers, sailors and marines, according to announcement by the federal government. Those who are discharged hereafter will receive this bonus on the same roll or voucher upon which they are given their final pay.

Section 1406 of the Revenue Act, approved February 24, 1919, authorizes the payment of a bonus of $60 to officers, soldiers, field clerks, and nurses of the Army upon honorable discharge, resignation or otherwise. This bonus is not payable to the heirs or representatives of any deceased soldier.

Nurses who have been discharged and have received their final pay without the $60 bonus, should make application to the Zone Finance Officer, Lemon Building, Washington, D. C., enclosing their discharge certificate or military orders for discharge, or both, if both were issued. Nurses are advised to secure attested copies of discharge certificates before forwarding them.

For further information regarding this, apply to the local Red Cross Chapter or the Division Department of Nursing Service.

BOY SPILLS THE BEANS ABOUT SIS'S NEW FELLER.

Smith Center, Kan., June 7.—The Methodist Sunday School here was "shocked" and amused when Willie Harris, a member of a little boy's class, betrayed some secrets about his sister.

"My sister has a new diamond ring," piped little Willie out in class.

"Hush," warned the teacher, who scented the giving away of a secret, as she blushingly pointed her finger at him.

"Well, she has," Willie reaffirmed, "and paw says it's a good one, because her beau had to sell his best mule to pay for it."

ROAD TO SUCCESS

Obey General Order No. 1, Which Is Simply, Find Out!

Heads of Big and Little Business, Who Do This, Will Be the Winners in the Great Industrial Battle Now On.

Find out! That's general order No. 1 in American big business.

Can Du Ponts, who made three-quarters of all explosives used against Germany, swing that vast machine into a useful purpose of peace?

It hired 2,000 chemists, set them to research work and found out!

Can the United States double its wheat product and add a half to its meat supply? Spend $25,000,000 in research work along agricultural lines as it did two years ago and find out!

How can Standard Oil utilize every drop of that black ooze which pours from thousands of oil wells? By employing chemists and engineers who can find out.

Why does Armour have 125 subsidiary companies, many of them highly profitable, and which as the elder Armour said utilize every part of the pig but the squeal? Because it spends an immense sum to carry out that general order No. 1 of all big business. Find out!

There are in the United States today 40 concerns, each of which spends anywhere from $100,000 to half a million annually on this great game of finding out, writes "Girard" in the Philadelphia Ledger.

It is the supreme day of the expert, the engineer and the chemist. It is the era of unlimited research work.

Is leather too scarce and expensive? Find a substitute.

Is there a famine in white paper? Set your researchers to discover a new crop.

Two-thirds of all the energy in coal goes up the chimney in smoke. The biggest fuel burners, such as the Pennsylvania railroad, spent big sums to find out a way to lessen the smoke and increase the heat in a boiler.

"Can you take that battery?" asked the general.

"I think I can," replied the colonel.

"Go take it," said the commander, "and don't come back until you do."

"Here's $10,000," says the corporation president to his chief of research workers, "find out how we can save a fraction of a cent on each ton of output."

And the fellow who can find out has won a great industrial battle and captured a battery from his more sluggish competitor.

One winter day in his banking office I saw Winthrop Smith hand a silver dollar to his old friend, the magician, Kellar.

"Here, do a trick," said the banker.

"Hands are too cold," replied the sleight of hand artist, but taking the coin he flipped it into the air and instantly it seemed as if it were raining silver dollars in Kellar's silk hat.

That's how some of the wizards in trade operate. By an apparent stroke of genius they multiply one dollar of profit into nearly a dozen.

"Luck," you say.

Not that at all. It wasn't luck which enabled the magician to manipulate the coins, but years of patient practice and study.

The follow who thinks he can win in business today without once following the injunction "find out," had better telephone for the sheriff to nail up his door.

Color Blindness.

Color blindness proves to be less simple than has been supposed, the defect being one of coloring instead of vision in some cases. As reported by Dr. H. E. Howe of the American Chemical society, eyes quite perfect in ordinary color perception have become weak or fatigued for red and then have responded to the green rays combined with the red from certain red glass. A veteran engine driver properly identified red light near at hand, while at considerable distance the signal appeared green. The disc of the lamp was found to be copper ruby glass and this and some other kinds of red glass permit rays toward the blue end of the spectrum to pass in mixture with the red. The use of selenium ruby glass is advised, its transmission of only red rays insuring that the normal eye will see no green.

Peculiar Patches in Sky.

Not less than 182 more or less clearly defined dark patches in the sky are recognized by Prof. E. E. Barnard in his latest catalogue. In some cases they are fairly round and regular, in others they are of complicated and contorted form and their appearance and sharpness suggest that they are dark clouds or nebulae cutting off a background made faintly luminous by unseen stars or diffused nebulous matter. Most, though not all, of the dark patches are in the region of the Milky Way, where so much of the material visible in the heavens is concentrated.

Belt Had Tightened.

Two soldiers from Fort McKinley, Maine, attended a bounteous repast on Thanksgiving day, and after partaking of the most varied assortment of dishes, the hostess inquired if they would have anything else. One soldier gazed longingly at the fruit, candy and ice cream as yet untouched, and remarked: "A little more room, please."—Everybody's Magazine.

BRIDEGROOM IN KHAKI NOW.

And June Marriage Licenses Are Breaking All Records in Chicago.

Chicago, June7.—The conventional black is passe, oh, very passe!

Khaki is the color these days that the bridegroom is standing up in, and according to the clerks at the county marriage license bureau, there are a good many standing up:

For with the war over and old loves back and new loves won, June marriages licenses are breaking all records in Chicago. In the four business days of this month 864 prospective husbands have stepped up to the marriage license windows in the county building and asked for permission to be married. This is an increase of seventy-five over June, 1914, the previous last normal year, when 789 licenses were issued.

More than 20 per cent of the men are in uniform. As many more are discharged soldiers who value the new certificate for marriage even more than they did the certificate of release from the army. The men register their ages approximately from 22 to 32. The girls, as usual, are a trifle younger.

AND SO IS JUSTICE SERVED!

Judge Refused a Plea of Guilty and Then Jury Freed Prisoner.

St. Louis, June 7.—When Fred Hogan, also known as Bamboro, who gave his address as Chicago, scanned the faces of the jurors who were selected in Circuit Judge Taylor's court today to try him on a charge of feloniously carrying burglar tools, he asked Assistant Circuit Attorney Lacy to permit him to plead guilty and take two years in the penitentiary. The request was denied.

An hour later, after Hogan on the witness stand had explained that he was carrying several keys and a flashlight because he worked in a hotel and that he did not know there was a steel saw concealed in his belt until policemen found it there, after his arrest, the jury returned a verdict of "not guilty."

Last week Hogan offered to plead guilty provided Judge Taylor would sentence him to a year in the workhouse This the judge refused to do.

"If you are guilty of this charge you should be sent to the penitentiary," said the judge and Hogan was ordered to stand trial.

Miss Jennie Evans and Evan Evans left Thursday night for Strawberry Point, Ia., to visit relatives and friends for two weeks.

Mrs. M. A. Ummethun, who has been visiting her daughter, Mrs. E. G. Orear left yesterday for her home in Kansas City.

WOOL! WOOL!!

I will buy your wool and pay the highest market price. My record in handling last years clip under government rulings is sufficient guarantee I can give best results. Plenty of sacks and twine on hands.

The Oakland
Sensible Six

Mechanical Construction

THE ENGINE—The Oakland Engine is of the high-speed, overhead valve, six-cylinder type. It develops 44-horse-power at 2600 revolutions per minute. The bore is 2 13-16 inch, the stroke 4¾ inches, with piston displacement of 177 cubic inches—cylinders are cast in one piece.

Aluminum Pistons add to the efficiency of the Oakland engine by lessening the bearing loads and making operation smooth when running at high speed.

Force feed lubrication insures most perfect oiling with the use of the least oil.

All engine parts are easy to reach. The construction of the intake and exhaust manifold is such as to get the maximum efficiency from every particle of gasoline.

The electric system is most reliable, thermostat control taking care of the current in cold or hot weather to eliminate the necessity of changing storage batteries.

The smoothness of this engine insures its long life and perfect performance under all conditions.

THE CHASSIS—Simplicity and strength are the principal points of the chassis of the Oakland Sensible Six. Springs are mounted under the frame and directly to it instead of using brackets. A gear driven tire pump may be used connected within the crank case.

Superior action is obtained by the employment of the Hotchkiss drive. Shocks are reduced by the long semi-elliptic rear springs. Rear axle is of the one-bearing, full floating type(hub and differential fitted with special Hyatt vanadium steel roller bearings. The drive shafts are 1½ inch nickel steel, double heat treated. The axle casing is strongly reinforced with truss rods.

The brake system is simple and positive and brakes are faced with wire woven asbestos.

Front axle is extra strong and springs are fastened at lowest point, giving a low center of gravity with 10 inches road clearance. Jacox irreversible steering gear is used.

Tires are 32x4. This is a large tire equipment for the weight of car and insures very high tire mileage.

On this extra good mechanical foundation are built the handsome bodies of the Oakland Sensible Six.

TOURING CAR $1075.
